

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

D2-92683

Intelligent Digital Amplifier and Sound Processor

Key Features

Advanced DAE-3™ Digital Audio Engine™ IC Family

DAE-3™ Pin Compatible and Function/Feature Compatible with the D2Audio™ DAE-6™ Device Family

DAE-3HT™ - Identical DAE-3 performance, in 72-QFN package

Integrated DSP Digital Sound Processing

Customizable audio path sound processing

Fully configurable and routable audio signal paths and hardware function assignment

Fully Supported with Audio Canvas™ III Design Tool

Flexible Audio Input and Output Configurations

12 Independent PWM Engine Channels

4 Independent Asynchronous I²S Digital Inputs

Integrated high-performance stereo ADC (DAE-3 only)

S/PDIF™ Digital Audio Inputs supporting Linear IEC-61958 PCM or Compressed IEC-61937 Audio

S/PDIF Digital Audio PCM Output

Embedded 8-Channel Sample Rate Converter

Real-Time Amplifier Control and Monitoring

Supports Bridged, Half-Bridged, and Bridge-Tied Load (BTL) Topologies, Using Discrete or Integrated Power Stages

Complete Fault Protection with Automatic Recovery

D2Audio™ SoundSuite™ Enhancement and Virtualization

Enhanced Audio Processing Decoders And Virtualization

Dolby® Digital/AC3

Dolby® Pro Logic IIx

Dolby® Virtual Speaker

SRS TruSurround HD4™ , SRS WOW HD™, SRS TruVolume™

Description

The D2-926xx family of the DAE-3™ and DAE-3HT™ Digital Audio Engine™ devices are complete System-on Chip (SoC) multi-channel digital sound processors and Class-D amplifier controllers.

The integrated DSP provides efficient and configurable audio signal path processing including equalization, dynamic range compression, mixing, and filtering that is completely configurable via the Audio Canvas™ III high level programming interface. The integrated PWM engine supports programmable and dynamic control of audio output, enabling a variety of multi-channel output configurations and output power capacity. Internal noise shaping, an embedded asynchronous sample rate converter, dynamic level-dependent timing, and high resolution operation supports power stage audio performances with SNR >110dB and THD+N < 0.01%.

The D2-926xx devices are provided in two package and feature configurations which include the 128-pin DAE-3, and the 72-pin DAE-3HT. Both the DAE-3 and DAE-3HT provide identical performance and enable an extremely flexible platform for feature rich and cost-affordable quality audio solutions, which benefit from the addition of Class-D amplifiers and DSP audio processing.

The 12 integrated digital PWM controllers can be used in a variety of multi-channel audio system configurations, supporting powered as well as line outputs. Fully protected amplifier control provides efficient and clean Class-D power output support.

Applications

- DTV and Blu-ray Soundbar
- DVD and Blu-ray Home Theater Systems
- Home Theater in a Box (HTiB)
- Audio Video Receiver (AVR)
- Multi-Channel Multi-Media (MM) Systems
- Multi-Room Distributed Audio (MRDA)
- Powered Speaker Systems
- Automotive Trunk/Amplified Solutions

| Parameters | D2-92683 | D2-92684 | Alternatives | D2-74583 | D2-71683 |
|--------------------------|---|---|---|---|-----------------|
| Input Channels | 8 | 8 | | 8 | 8 |
| PWM Output Channels | 12 | 12 | | 12 | 12 |
| Signal Flow | Configurable | Configurable | | Configurable | Configurable |
| Supported Audio Inputs | 4x I ² S, 1x S/PDIF, 8x fault INT | 4x I ² S, 1x S/PDIF, 8x fault INT | 4x I ² S, 2x S/PDIF, HDA, ADC (opt), 8x fault INT | 4x I ² S, 2x S/PDIF, HDA, ADC (opt), 8x fault INT | |
| Supported Audio Outputs | 12x PWM, 1x I ² S, 1x S/PDIF | 12x PWM, 1x I ² S, 1x S/PDIF | 12x PWM, 4x I ² S, 1x S/PDIF | 12x PWM, 4x I ² S, 1x S/PDIF | |
