World's smallest 6-contact guard lock safety-door switch

D4SL-N Series

Slide Key

Trapped key allows the handle to be locked in the open position; prevents entrapment inside a work cell.

Simple mounting to extruded aluminum frames.

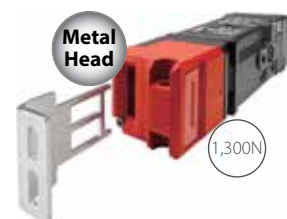

Removable terminal block

Easier to wire and allows for quick maintenance if the switch is damaged and needs replacing.

Metal operation head

Improved durability with optional metal operation head. Fixed head design eliminates the leading cause of unintended failure.
