

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## Non-Contact Current Detector

 **Locates current in hidden wires and cables up to 1000A**  
With audible and visible detection

### Features:

- Non-contact AC Current range is from 200mA to 1000A
- Locates current flow even where voltage detectors cannot work
- Detects through shielded wires, conduit and metal circuit breaker or junction boxes
- Sensitivity adjustment for locating wires/conduit through walls
- Ideal for locating hidden conductors
- Dimensions: 5.7 x 1.1 x 1" (145 x 28 x 25mm)  
Weight: 1.6oz (45g)
- Complete with small size pocket clip and four LR44 button batteries

### Applications:

- Locates wires in conduit
- Identify underground cables
- Trace low voltage HVAC wiring
- Detect leakage currents
- Find hidden wiring
- Verify energized AC solenoid and motors

### Ordering Information:

DA30 .....Non-Contact Current Detector
