imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

0.4 mm Pitch, Horizontal Mating, Board-to-Micro-Coaxial Cable Connector

DF81 Series

Features

1.Space saving design

Utilizing its 0.4 mm pitch, this horizontal connector offers a space saving design and a low height of 0.9 mm in a single row connector.

2.High speed transmissions

Designed to optimize transmission speeds, the DF81 series provides superior signal characteristics.

•eDP[™] [Embedded DisplayPort[™]] Ver. 1.3 compatible 5.4 Gbps

•MIPI (D-PHY)

3.Enhanced shielding

Shielding capacity has increased by providing multiple grounding points (Fig.1).

4. Positive locking structure

The positive locking structure utilizes a rotary latch that prevents incomplete mating. (Fig.2)

5.Excellent mating operation

Excellent self-alignment allows for easier mating. (Fig.3)

6.Accepts both micro coaxial cable and discrete wire

Its versatility allows micro coaxial cable and discrete wire to be used together on a single connector.

7.Solder wicking prevention

Nickel barriers are strategically placed between the receptacle's contact area and the soldered lead area to prevent solder wicking.

8.RoHS compliant, Halogen-free

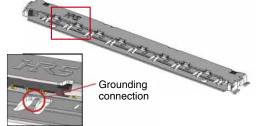

Chlorine and bromine are not used in these connectors and do not exceed standard values.

* It is defined according to IEC 61249-2-21.

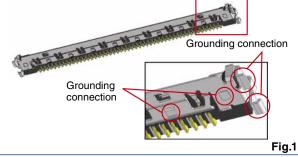

Br: 900 ppm or less, Cl: 900 ppm or less, Br + Cl: 1,500 ppm or less

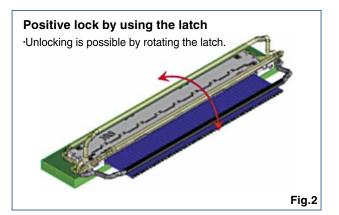

Enhanced shielding capability

Grounding connection between plug connector and receptacle connector 30 contacts: 5 locations / 40 contacts: 7 locations / 50 contacts: 9 locations

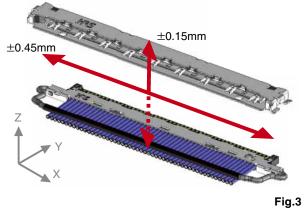

-Grounding connection between receptacle connector and PCB 30 contacts: 10 locations / 40 contacts: 12 locations / 50 contacts: 14 locations

Excellent mating operability •Wide self-alignment (X direction: ±0.45, Z direction: ±0.15)

2014.62 HS 1

Product specifications

Ratings	Rated Current	[Discrete wire] AWG #34: 0.3 A(MAX0.8 A) AWG #36: 0.3 A(MAX0.8 A) [Micro coaxial cable] AWG #36: 0.3 A(MAX0.8 A) AWG #40: 0.25 A AWG #42: 0.2 A AWG #44: 0.15 A AWG #46: 0.1 A	(Note 3) (Note 4)	Operating Temperature Range Operating Humidity Range	-35 to 85℃(Note 1) 20 to 80℃
	Rated	100 V AC/DC		Storage Temperature Range	-10 to 60℃ (Note 2)
	Voltage			Storage Humidity Range	40 to 70°C(Note 2)

Items	Specifications	Conditions
1. Insulation Resistance	50 MΩ or greater	Measured at 100 V DC
2. Withstanding Voltage	No flashover or breakdown	Conduct 250 V AC for one minute
3. Contact Resistance	Signal: 80 mΩ or lower GND: 80 mΩ or lower	Measured at 100 mA (DC or 1,000 Hz)
4. Vibration Resistance	No electric outage of 1μ s or greater	10 cycles in each of three directions at frequency 10- 55 Hz, single amplitude 0.75 mm
5. Moisture Resistance	Contact resistance (amount of change from the initial state): 50 m Ω or lower Insulation resistance: 25 M Ω or greater	Temperature: 40± 2°C, Humidity: 90 to 95%, Leave 96 hours
6. Temperature Cycles	Contact resistance (amount of change from the initial state): 50 m Ω or lower Insulation resistance: 25 M Ω or greater	(-55°C: 30 minutes → 5 to 35°C: 2 to 3 minutes → 85°C: 30 minutes → 5 to 35°C: 2 to 3 minutes) 5 cycles
7. Mating Cycles	Contact resistance (amount of change from the initial state): 50 m Ω or lower	30 cycles
8. Solder Heat Resistance	There should be no dissolution of the resin part which will influence the performance.	Reflow: According to the Recommended Temperature Profile Hand soldering: Soldering iron temperature of 350°C for 3 seconds

(Note 1) Temperature rise at the time of electrification is included.

(Note 2) The term "storage" refers to the long-term storage of unused products in its original packaging before PCB mounting. Operating Temperature/Humidity Ranges are applied to the deenergized state after mounting of PCB and the temporary storage state during transportation.

(Note 3) Current will vary depending on use conditions. "MAX" is rating current as only two of them turn on electricity.

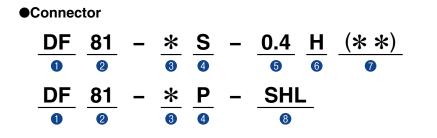

(Note 4) Rated current value is set only using the temperature rise value of the connector.

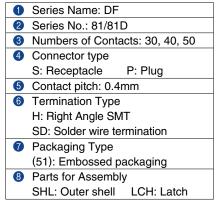

Materials

Product	Parts	Materials	Treatment	UL Recognition

Precautions

Precautions when mating/ unmating

Handling Precautions

■Inserting the connector

1.Latch position

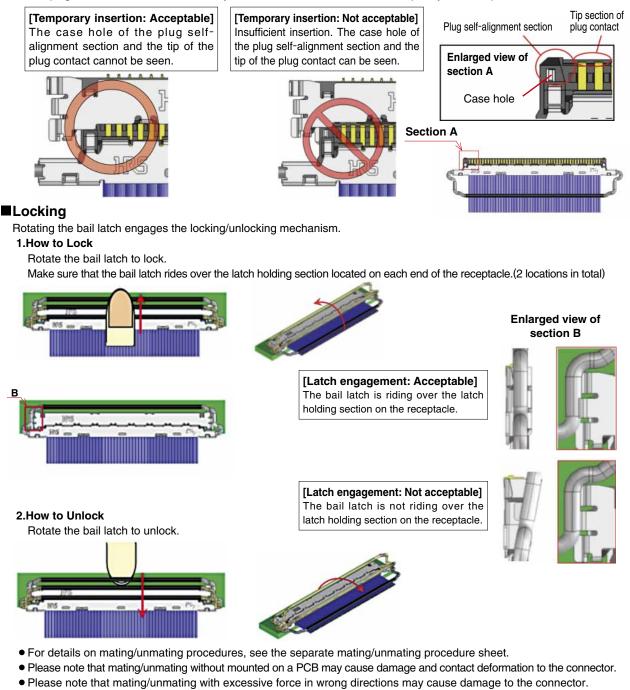

The latch needs to begin on the top side of the connector. If not, you will not be able to engage the locking mechanism and the mating process cannot be completed.

2. Temporary insertion

Position the plug so that it is parallel to the receptacle. Align the plug, and then gently insert the plug into the receptacle. The plug can now be inserted effortlessly until it reaches the bottom of the temporary insertion position.

• During hand soldering, do not apply flux which will cause flux migration on connector.
