

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Screw Shield V2 for Arduino

SKU:DFR0171

INTRODUCTION

The DFRobot Arduino-Compatible Screw Shield is a terminal expansion board that allows you to screw in jumper wires to a screw terminal for a much stronger and secure connection for your I/O and power pins. Feel secure with this arduino-compatible screw shield.

The screw shield v2 from DFRobot also extend the power supply pins for the signal pins. You could directly plugin the sensors and the servos to the screw shield v2. The pin headers are color coded for easy identification of analog, digital, and power pins.

We commonly use:Green for digital I/O;Blue for Analog I/O;Red for Voltage

SPECIFICATION

- I/O Screw terminals
- 3-Pin male headers for easy sensor/servo connection
- Colored pin headers
- Size: 32x65mm(1.26"x2.56")

SHIPPING LIST

- Screw Shield V2 For Arduino x1
