

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Structural Adhesive

## Duo-Pak Delivery System Updates

Q1 2018

## Better dispensing, better results.

As of Q1 2018, the 3M™ Scotch-Weld™ Structural Adhesive Duo-Pak delivery systems will feature updates and improvements to help provide better adhesive delivery and results.

### Improvements to the updated delivery systems in the 3M Duo-Paks include:

- New seal to eliminate cartridge leaks
- New isolated outlet to prevent cross-contamination
- Updated cap to prevent accidental bonding of cap to cartridge
- Cartridge volume changes
- Manual plunger and nozzle changes
- Pneumatic applicator changes

## New seal to eliminate cartridge leaks

The new pistons use a double lip seal instead of an O-ring seal design to help eliminate leaks due to chemical incompatibilities that cause O-rings to swell and degrade over time.

**CURRENT**  
PISTON SEAL DESIGN

**NEW**  
PISTON SEAL DESIGN

**BETTER CHEMICAL  
COMPATIBILITY**

## New cartridge end sealing flange

A sealing flange at the rear of the cartridge chambers “locks” the above pistons in position so these products can be qualified for air shipments without leaks around pistons.

## New isolated outlet to prevent cross-contamination

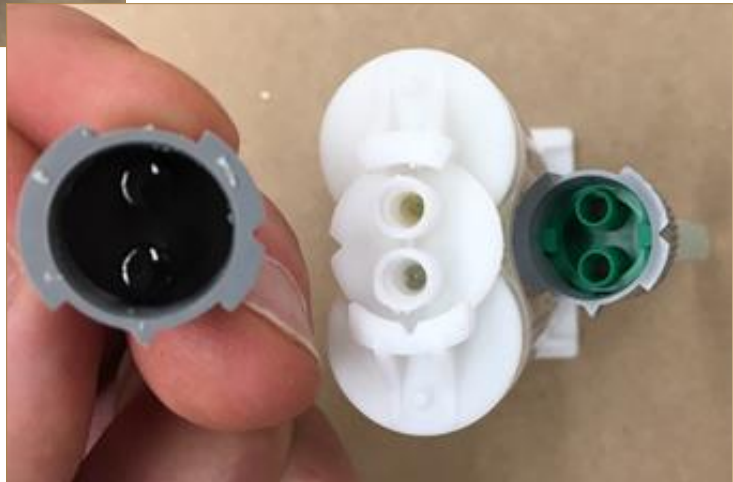

The current cap can be installed backwards on a partially dispensed cartridge, permanently sealing the cartridge shut. This renders the remaining adhesive useless.

The new cap is keyed and cannot be installed backwards, so partially consumed cartridges can be saved and used later.

**CURRENT**  
CARTRIDGE CAP

**NEW**  
CARTRIDGE CAP

**LESS CROSS-CONTAMINATION**

# Cartridge volume changes

The contained volume of the 3M Duo-Pack cartridges has changed.

	OLD DELIVERY SYSTEM	NEW DELIVERY SYSTEM
<b>1:1 System</b>	47.0 or 50.0 mL	48.5 mL
<b>2:1 System</b>	37.0 mL	50.0 mL
<b>2:3 System</b>	43 mL	No change – see below*

In addition, the new 1:1 System has one cartridge style, instead of three per the old packaging.

## 2:1 RATIO STRUCTURAL ADHESIVE

## 1:1 RATIO STRUCTURAL ADHESIVE

\*3M EC-2216 is the only Duo-Pak adhesive delivery system that will not change. This product will continue to use the old 2:1 plunger and the helical and square static mixers. However, a pneumatic applicator for this product will no longer be available from 3M.

## Manual plunger and nozzle changes

A portion of the 3M™ EPX™ Plus II Manual Applicator Plunger Set has changed. The applicator has remained the same, but the plungers have changed to accommodate the new 50 mL / 2:1 cartridge size. Please refer to the table below to determine which hardware accessories work with the new and improved cartridge delivery system.

### CURRENT PLUNGER SET

### NEW PLUNGER SET

## Pneumatic applicator changes

The pneumatic applicator is required only for the larger (50 mL) 2:1 cartridge size. The new model is lightweight and has improved ergonomics. Please refer to the table on the following page to determine which hardware accessories work with the new and improved cartridge delivery system.

#### PNEUMATIC APPLICATOR

### **NEW**

#### PNEUMATIC APPLICATOR

## Frequently asked questions

**Q: Will the chemistry of the products change?**

A: No, the chemistry of the adhesives will stay the same.

**Q: Will the price of the adhesives change?**

A: No, the price per milliliter of adhesive will stay the same.

**Q: Will the stock numbers and UPCs change?**

A: Yes, the new delivery systems will have updated stock and UPC numbers.

**Q: Will static mixers change?**

A: Yes, static mixers will change to accommodate the isolated port design of the new cartridges.

**Q: How will the plunger set for the EPX Plus II Manual Applicator work with the new delivery system?**

A: There will be one shared plunger that works with the 48.5 mL 1:1 series and the 2:1 50 mL series. No plunger changes for the 45 mL 10:1 series.

**Q: How will the updates affect the way the delivery system works with the pneumatic applicator?**

A: A new pneumatic applicator is designed to work with the 48.5 mL 1:1 series and the 50 mL 2:1 series.

**Q: Will the quantity of cartridges per case change?**

A: No, the cartridge quantity will stay the same.

**Q: Will the country of origin, SDS and TDS for the products change?**

A: No, the country of origin, SDS and TDS for the products will stay the same.

**Q: How do I get my starter kit?**

A: To get your starter kit, please contact your local sales representative or call 1-800-362-3550.

**Q: Who do I contact to find my local 3M representative to get more information?**

A: Outside the United States, please e-mail [bdb Brady@mmm.com](mailto:bdb Brady@mmm.com).  
Within the United States, contact 1-800-362-3550.
