Heavy-Duty Tilt Security Wall Mount for 32" to 55" TVs and Monitors, Flat or Curved Screens, UL Certified

MODEL NUMBER: DWTSC3255MUL

Heavy-duty wall mount with combination lock mounts your flat-panel or curved-screen television or monitor to the wall.

Features

Hangs Your Flat-Panel or Curved-Screen TV or Monitor on the Wall

Ideal for home theaters, classrooms, conference rooms, hotels, bars, restaurants or anywhere else you may want to show off a television or monitor, this heavy-duty wall mount is hidden out of sight behind the display for a sleek, professional appearance. It fits most flat-panel or curved-screen displays from 32 to 55 inches. Mounting hardware is included.

Durable All-Metal Construction Provides Convenient Cable Access

The 55-inch-TV wall mount is constructed from heavy-duty steel with a powder-coated black finish that resists scratches. Rear openings with smooth edges enable easy access to cables. A built-in bubble level helps ensure your display is evenly mounted. This heavy-duty wall mount supports up to 200 pounds and meets UL Standard 2442.

Designed to Keep Your Display Safe and Secure

This heavy-duty wall mount was conceived with your television or monitor's security in mind, especially if the display is located in a public area with much unguarded traffic, such as a library, classroom or hotel lobby. It comes with a solid steel security bar that slides through the mounting brackets and is secured into place with an included three-position combination lock.

Tilt Feature Lets You Adjust the Viewing Angle to Your Specifications

You can adjust the horizontal angle of your display from -15° to $+10^{\circ}$. This will minimize glare on the screen and allow you to customize the angle for comfortable viewing.

Complies with VESA Standards

VESA (Video Electronics Standards Association) promotes uniformity in the video electronics industry by developing industry-wide standards for products like flat-panel TVs and monitors. To comply with these standards, most manufacturers use a series of universal mounting hole patterns, measured in millimeters, on the backs of the products. Measure the vertical and horizontal distances between the holes on the back of your display or refer to your display's owner's manual to find its VESA pattern. This 55-inch-TV wall mount conforms to VESA-compliant displays with any of the following standard mounting hole patterns: 200 x 200, 300 x 300, 400 x 200 and 400 x 400.

Highlights

- Accepts most popular flat- or curved-screen displays from 32 to 55 in. up to 200 lb.
- Solid steel security bar and included combo lock deters tampering and theft
- Heavy-duty steel construction designed for long life and to resist wear and tear
- Open architecture and built-in level enable easy cable access and accurate leveling
- Tilts -15° to $+10^{\circ}$ to minimize glare and provide comfortable custom viewing angles

Applications

- Mounting a flat- or curved-screen television or monitor in an office lobby, conference room, bar, restaurant, airport or anywhere else digital signage is desired
- Securing an expensive display in a hotel lobby, classroom, library, hospital, truck stop or other public area with much foot traffic
