imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Differential Pressure Sensor

"Cube" Type Differential Pressure Sensor with LED Display Offers High Precision Sensing

- New *psi version* available
- Compact, cube-style measuring 31 x 30 x 30 mm (1.22 x 1.18 x 1.18 in) saves mounting space
- Easy-to-read red LEDs
- Digital and analog output available
- Flow sensing type available
- PNP output types available upon special request

Ordering Information_

SENSOR

Туре	Digital output	Analog output	Pressure range	Port/Mounting	Part number
Miniature differential pressure sensor	NPN open collector (2 independent outputs)		0 to 2.0 kPa	4.5 mm dia. pipe	E8Y-A2C
				1/8 NPT	E8Y-A2C-R
			0 to 5.0 kPa	4.5 mm dia. pipe	E8Y-A5C
				1/8 NPT	E8Y-A5C-R
			0 to 0.290 psi	4.5 mm dia. pipe	E8Y-A2C-D
				1/8 NPT	E8Y-A2C-RD
			0 to 0.725 psi	4.5 mm dia. pipe	E8Y-A5C-D
				1/8 NPT	E8Y-A5C-RD
		4 to 20 mA	0 to 2.0 kPa	4.5 mm dia. pipe	E8Y-A2Y
				1/8 NPT	E8Y-A2Y-R
			0 to 5.0 kPa	4.5 mm dia. pipe	E8Y-A5Y
				1/8 NPT	E8Y-A5Y-R
			0 to 0.290 psi	4.5 mm dia. pipe	E8Y-A2Y-D
				1/8 NPT	E8Y-A2Y-RD
			0 to 0.725 psi	4.5 mm dia. pipe	E8Y-A5Y-D
				1/8 NPT	E8Y-A5Y-RD
Flow sensor		_	0.3 to 3.0 liter/min. (0.07 to 0.68 gal./min.)	1/8 NPT, vertical	E8Y-A5C-F03V
				1/8 NPT, horizontal	E8Y-A5C-F03H
			2.0 to 20 liter/min. (0.45 to 4.54 gal./min.)	1/8 NPT, vertical	E8Y-A5C-F20V
				1/8 NPT, horizontal	E8Y-A5C-F20H

	E8Y-A2C-RD	E8Y-A5C-RD	E8Y-A2Y-RD	E8Y-A5Y-RD		
Sensor type	Differential pressure sensor Flow sensor					
Power supply voltage		10%, ripple (p-p)				
Current consumption	50 mA max.		75 mA max.		50 mA max.	
Pressure type	Differential pressure		Differential pressure sensing			
Rated pressure / volume range	0 to 2.0 kPa 0 to 0.29 psi	0 to 5.0 kPa 0 to 0.73 psi	0 to 2.0 kPa 0 to 0.29 psi	0 to 5.0 kPa 0 to 0.73 psi	0.3 to 3.0 L/min. 0.068 to 0.68 gal/min.	2.0 to 20.0 L/min. 0.45 to 4.54 gal/min.
Withstand pressure / volume	50 kPa (7.25 psi)			5 L/min (1.14 gal)	40 L/min (9.08 gal)	
Applicable fluid	Non-corrosive g	gas and non-flam	mable gas			
Accuracy	±3% FS max.					
Linearity	±1% FS max.					
Responce time (digital output)	±0.5 sec max.					
Linear output	_		4 to 20 mA \pm 1%FS with a permissible resistive load of 250 Ω		_	
Digital output	NPN open colle Load current: 1 Applied voltage Residual voltag	00 mÀ max. : 30 VDC max.	a load current of	100 mA or 0.4 V	max. with a load current	of 16 mA
Display	3 digit red LED	the orange LED	indicator is lit for	two independent	outputs.	
Display accuracy	±1% FS			±3% FS		
Circuit protection	Reverse polarit	y connection, loa	d short-circuiting			
Ambient temperature	Operating: -10°C to 55°C (14°F to 131°F) with no icing Storage: -25°C to 65°C (-13°F to 149°F)					
Ambient humidity	Operating: 25%	to 85% (with no	condensation)			
Temperature influence	±3% FS max.					
Voltage influence	±1.5% FS max.					
Setting resolution	0.01 kPa 0.001 psi	0.01 kPa			0.0 1L/min.	0.1 L/min.
Insulation resistance	100 MΩ (at 500	VDC) between o	current-carry parts	s and case		
Dielectic strength	1,000 VAC 50/60 Hz at 1 min.					
Vibration resistance	Endurance: 10	to 500 Hz, 1.0-m	m double amplitu	de or 150 m/s², 3	times each for 11 min. i	n X, Y and Z directions
Shock resistance	Endurance: 300 m/s^2 (30G) 3 times each to X,Y and Z directions					
Degree of protection	IEC60529, IP40					
Pressure port	NPT 1/8 female screw or 4.5 dia. pipe			1/8 NPT female screw		
Connection method		dard length: 2 m)				
Cable	Approved by U					
Weight	Approx. 80 g (2.8 oz) (including packing material)			Approx. 160 g (5.6 oz) (including packing material)		
Material	Pressure port: resin pipe for 4.5 dia., zinc die-cast for 1/8 NPT taper screw Case: heat-resistant PBT					
		et and instructior			Instruction sheet	

Nomenclature.

■ E8Y PRESSURE SENSOR

Display

1 Numerical value/menu indication

Displays the measured pressure and some menu settings.

2 Unit

Shows the measuring unit. Unit currently in use is illuminated.

③ OUT 1 indication LED

In measurement mode, it lights when OUT 1 output is on. In setting mode, it flashes when OUT 1 is being set.

(4) OUT 2 indication LED

In measurement mode, it lights when OUT 2 output is on. In setting mode, it flashes when OUT 2 is being set.

Operation key

(5) ADJ

In measurement mode, it adjusts the Zero Point. In setting mode, it shifts to measurement mode.

6 MODE

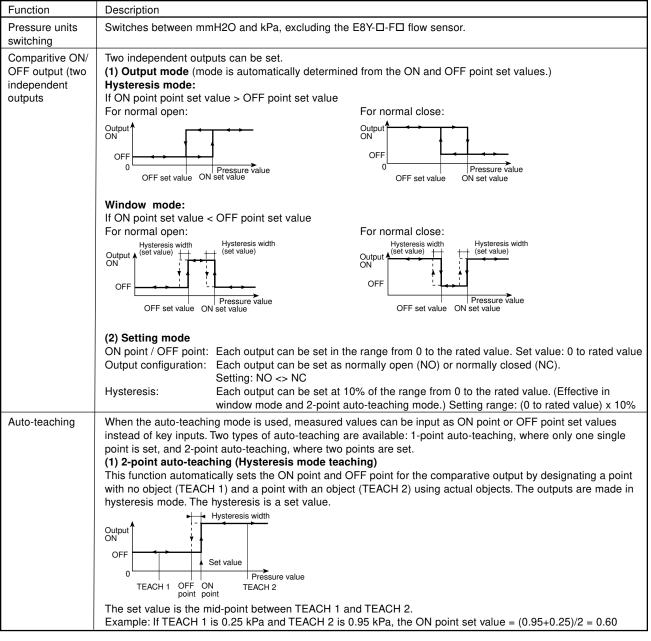

Selects the current number setting or menu option.

⑦ UP/DOWN

In measurement mode, pushing the DOWN key displays the ON and OFF points of OUT 1; pushing the UP key displays the ON and OFF points of OUT 2. In setting mode, the UP and DOWN keys increase or decrease the numeric value, respectively, or scroll through the menu options. E8Y

Operation

■ FUNCTIONS

(This table continues on the next page)

E8Y

E8Y =

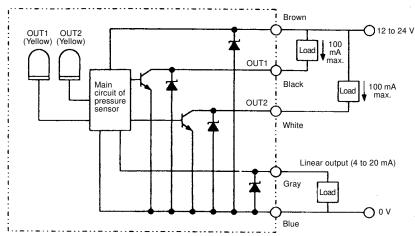

_____ E8Y

Functions Table - continued from previous page

Function	Description				
Auto-teaching (continued)	(2) 1-point auto-teaching (Window mode teaching) This function automatically sets the ON point and OFF point for the comparitive output by inputing a reference point (TEACH 1) using an actual object. The function operates only when an object exists. The outputs are made in the window mode. The hysteresis width and window width are set values. (The window width set value is valid only when 1-point teaching is set. Setting range: (0 to rated value) x 30%) Hysteresis width OFF OFF Window width OFF Window width OFF Window width OFF Pressure value (TEACH 1) The ON point and OFF point set values are set at the reference point ±window width. Example: If the reference point (TEACH 1) is 0.90 kPa and the window width is 0.50 kPa, the ON set value = (0.90 - 0.50)/2 = 0.20 and the OFF point set value = (0.90+0.50)/2 = 0.70.				
Key-protect (Set value lock function)	This function restricts switch operation to prevent the set value from being easily changed. Set value: OFF <> ON				
Set value zero-setting	Hold down the ADJ key for several seconds in the measurement mode to activate this function.				
Speed control function with measured pressure display	Select from three values of display speed for the measured pressure values. Set value: 0.1 s, 0.5 s, 1.0 s				
Error display	(1) Pressure warning during zeroing: Error display and warning if excess pressure or flow (exceeding rated value ±5%) is applied during zeroing.				
	(2) Teaching error display: Warning if teaching is unsuccessful.				
	Er.E				
	(3) Short-circuit protection and display: If overcurrent flows in a connected load, the abnormal status is notified by an error display and the OUT LED, for the corresponding output, flashing. Transistor acts to cut the abnormal current.				
	Er.ō				
	(4) Abnormal pressure or flow detection: The diplayed value flashes to indicate the abnormal status if the applied pressure or flow exceeds the rated value by 10%. This error is automatically reset when the supplied value enters the rated range.				
	(5) ON/OFF point input error warning: Indicates if the difference between the ON point and OFF point in the window mode exceeds the hysteresis value + setting resolution (0.01 kPa/1 mmH ₂ O).				
	Er.5

Precautions

ENVIRONMENT

- Do not use this product where explosive gas, ignitable gas, or any other harmful gas may be present.
- Do not use beyond rated supply voltage or under AC power supply. Explosion or fire may be caused.
- Do not mix up DC pole's wiring. Explosion or fire may be caused.
- This product cannot be used under corrosive gas or flammable gas.
- Do not install beside high voltage line or power line.
- · Do not expose to water.
- Do not effect the product by ultrasonic vibration.

CORRECT USE

- · Use within rated pressure.
- Do not mix up connecting +, sign of pressure port. The "+" sign is for plus pressure, the "-" sign for minus pressure.
- Do not pull the cable more than 50 N (11.25 lbs).
- Filter the gas with an appropriate air filter so that the applied gas will be free of moisture or oil.
- When not using linear output and/or the ON/OFF output, cut the output lead wire and cover the tip with an insulation tube to prevent wrong connection.
