# imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## 2.5V Drive Nch+Nch MOS FET EM6K1

•Structure Silicon N-channel MOS FET

#### Features

- 1) Two 2SK3019 transistors in a single EMT package.
- 2) The MOS FET elements are independent, eliminating mutual interference.
- 3) Mounting cost and area can be cut in half.
- 4) Low on-resistance.
- Low voltage drive (2.5V) makes this device ideal for portable equipment.

#### •External dimensions (Unit : mm)

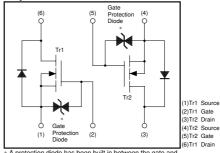

#### Applications

Interfacing, switching (30V, 100mA)

#### Packaging specifications

	Package	Taping
	Code	T2R
Туре	Basic ordering unit (pieces)	8000
EM6K1		0

#### •Equivalent circuit

A protection diode has been built in between the gate and the source to protect against static electricity when the product

is in use. Use the protection circuit when rated voltages are exceeded

#### •Absolute maximum ratings (Ta=25°C)

< t is the same ratings for Tr1 and Tr2.>

Parameter		Limits	Unit	
Drain-source voltage		30	V	
Gate-source voltage		±20	V	
Continuous	lo	±100	mA	
Pulsed	IDP *1	±400	mA	
Total power dissipation		150	mW / TOTAL	
		120	mW / ELEMENT	
hannel temperature		150	°C	
Storage temperature		-55 to +150	°C	
			VDSS 30   VGSS ±20   Continuous lb ±100   Pulsed lbP*1 ±400   PD*2 150   Tch 150	

∗1 Pw≤10µs, Duty cycle≤1%

\*2 With each pin mounted on the recommended lands.

#### Notes

- No technical content pages of this document may be reproduced in any form or transmitted by any means without prior permission of ROHM CO.,LTD.
- The contents described herein are subject to change without notice. The specifications for the product described in this document are for reference only. Upon actual use, therefore, please request that specifications to be separately delivered.
- Application circuit diagrams and circuit constants contained herein are shown as examples of standard use and operation. Please pay careful attention to the peripheral conditions when designing circuits and deciding upon circuit constants in the set.
- Any data, including, but not limited to application circuit diagrams information, described herein are intended only as illustrations of such devices and not as the specifications for such devices. ROHM CO.,LTD. disclaims any warranty that any use of such devices shall be free from infringement of any third party's intellectual property rights or other proprietary rights, and further, assumes no liability of whatsoever nature in the event of any such infringement, or arising from or connected with or related to the use of such devices.
- Upon the sale of any such devices, other than for buyer's right to use such devices itself, resell or otherwise dispose of the same, no express or implied right or license to practice or commercially exploit any intellectual property rights or other proprietary rights owned or controlled by
- ROHM CO., LTD. is granted to any such buyer.
- Products listed in this document are no antiradiation design.

The products listed in this document are designed to be used with ordinary electronic equipment or devices (such as audio visual equipment, office-automation equipment, communications devices, electrical appliances and electronic toys).

Should you intend to use these products with equipment or devices which require an extremely high level of reliability and the malfunction of with would directly endanger human life (such as medical instruments, transportation equipment, aerospace machinery, nuclear-reactor controllers, fuel controllers and other safety devices), please be sure to consult with our sales representative in advance.

About Export Control Order in Japan

Products described herein are the objects of controlled goods in Annex 1 (Item 16) of Export Trade Control Order in Japan.

In case of export from Japan, please confirm if it applies to "objective" criteria or an "informed" (by MITI clause) on the basis of "catch all controls for Non-Proliferation of Weapons of Mass Destruction.
