Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Information

For further information on technology, delivery terms and conditions and prices, please contact the nearest Infineon Technologies Office (**www.infineon.com**).

Warnings

Due to technical requirements, components may contain dangerous substances. For information on the types in question, please contact the nearest Infineon Technologies Office.

Infineon Technologies components may be used in life-support devices or systems only with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support device or system or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.

1 Uni-directional ESD / Transient Protection Diode

1.1 Features

- ESD / transient protection according to:
  - **IEC61000-4-2 (ESD): ±25 kV (air) 20 kV (contact)**
  - **IEC61000-4-4 (EFT): 50 A / 2.5 kV (5/50 ns)**
  - **IEC61000-4-5 (surge): 5.5 A / 66 W (8/20 µs)**
- Uni-directional, working voltage: V_{RWM} = 5 V
- Ultra low clamping voltage, protects against both positive and negative ESD strikes
- Ultra low dynamic resistance: R_{DYN} down to 0.2 Ω
- Very fast response time
- Pb-free (RoHS compliant) and halogen free package

1.2 Application Examples

- Notebooks, computers and consumer electronics
- Industrial applications, white goods, portable instrumentation
- Mobile communication
