# imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# To learn more about ON Semiconductor, please visit our website at <u>www.onsemi.com</u>

Please note: As part of the Fairchild Semiconductor integration, some of the Fairchild orderable part numbers will need to change in order to meet ON Semiconductor's system requirements. Since the ON Semiconductor product management systems do not have the ability to manage part nomenclature that utilizes an underscore (\_), the underscore (\_) in the Fairchild part numbers will be changed to a dash (-). This document may contain device numbers with an underscore (\_). Please check the ON Semiconductor website to verify the updated device numbers. The most current and up-to-date ordering information can be found at <a href="https://www.onsemi.com">www.onsemi.com</a>. Please email any questions regarding the system integration to <a href="https://www.onsemi.com">Fairchild\_questions@onsemi.com</a>.

### FGH60N60SF 600 V, 60 A Field Stop IGBT

#### Features

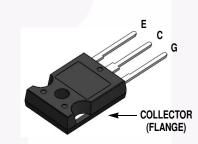

- High Current Capability
- Low Saturation Voltage: V<sub>CE(sat)</sub> = 2.3 V @ I<sub>C</sub> = 60 A
- High Input Impedance
- Fast Switching
- RoHS Compliant

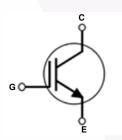

#### Applications

• Solar Inverter, UPS, Welder, PFC

### **General Description**

Using novel field stop IGBT technology, Fairchild's field stop IGBTs offer the optimum performance for solar inverter, UPS, welder and PFC applications where low conduction and switching losses are essential.

#### **Absolute Maximum Ratings**

Symbol	Description		Ratings	Unit V	
V <sub>CES</sub>	Collector to Emitter Voltage	600			
V <sub>GES</sub>	Gate to Emitter Voltage	±20	V		
	Transient Gate-to-Emitter Voltage	±30	v		
I <sub>C</sub>	Collector Current	@ T <sub>C</sub> = 25°C	120	A	
	Collector Current	@ T <sub>C</sub> = 100°C	60	A	
I <sub>CM (1)</sub>	Pulsed Collector Current	@ T <sub>C</sub> = 25°C	180	А	
P <sub>D</sub>	Maximum Power Dissipation	@ T <sub>C</sub> = 25°C	378	W	
	Maximum Power Dissipation	@ T <sub>C</sub> = 100°C	151	W	
TJ	Operating Junction Temperature		-55 to +150	°C	
T <sub>stg</sub>	Storage Temperature Range		-55 to +150	°C	
Τ <sub>L</sub>	Maximum Lead Temp. for soldering Purposes, 1/8" from case for 5 seconds	300	°C		

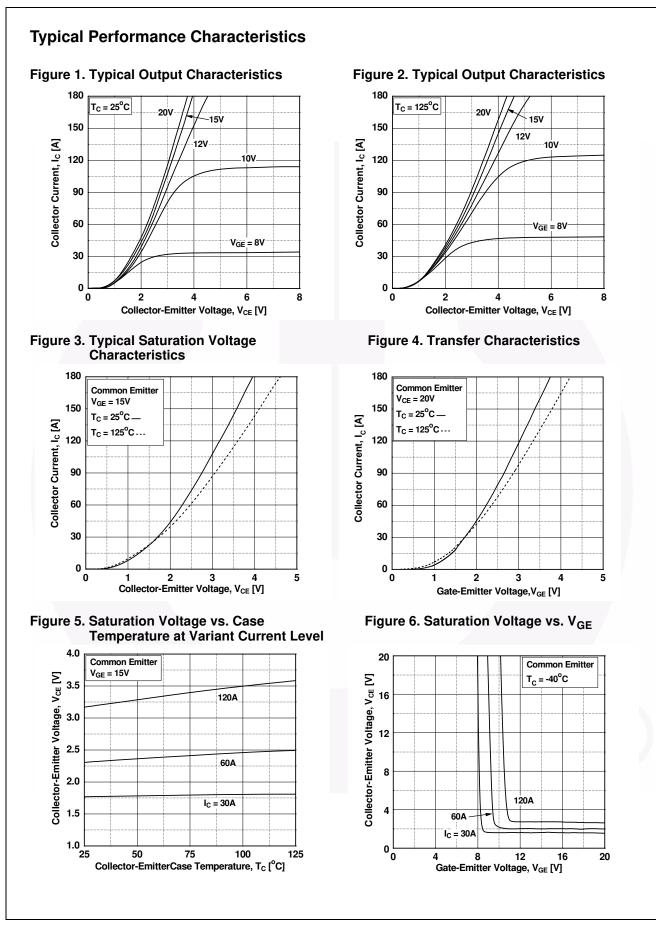

Notes:

1: Repetitive test, Pulse width limited by max. juntion temperature

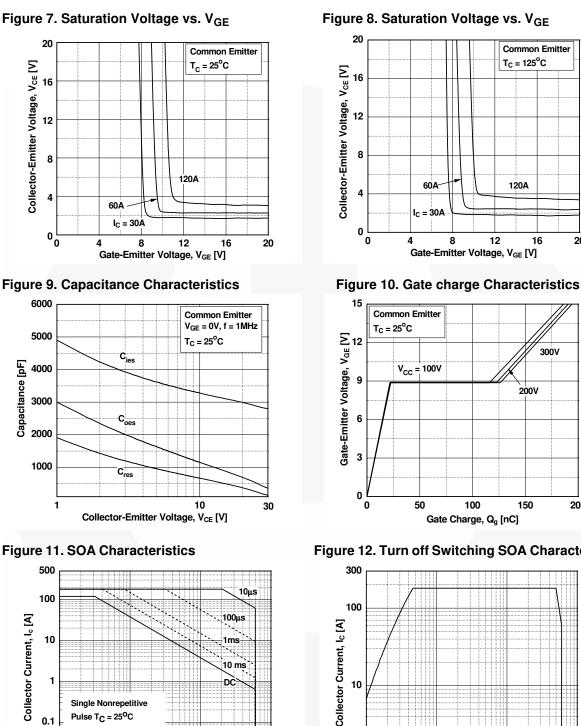

#### **Thermal Characteristics**
