Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Analog Sensor Cable for Arduino (10 Pack)

SKU: FIT0031

INTRODUCTION

The analog sensor cables are especially designed for our popular IO Expansion shield and sensors. It connects most of our analog sensor to the IO board.

This price includes 10 pieces of cables.

Latest Update: Change the analog sensor extension pin mapping to be compatible with the latest IO expansion shield and Romeo analog sensor expansion pinout.

Latest Pin mapping for Analog sensor extension

- Red: PWR; Blue: Signal

SPECIFICATION

- Length:30cm
- Maximum voltage:<50V
- Maximum current:<1000mA
- One Servo Type connector with Signal, GND PWR.
- One 3 Pin JST connector
