

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

ProtoBoard Pro-Double Sided

SKU:FIT0193

INTRODUCTION

This is a very basic double sided prototyping board with standard 0.1" spacing with a 4x3mm (0.16x0.12") holes for mounting. The leaf pads make you great for quickly prototyping stackable circuits. You can not only solder DIP components but also solder SMD components.

You can solder the digital & analog IO pins and plug it into Arduino, so that the proto board can directly communicate with Arduino like a simple shield. See the following picture, a simple light water project with Arduino.

SPECIFICATION

- Compatibility: DIP & SMD components
- Mounting Holes: 3x4mm (0.12x0.16")
- Size: 100x75mm (3.94x2.95")
