Comments:

The HAKKO FT-801 Thermal Wire Stripper with Knife uses the same base unit that was introduced earlier this year, except instead of being paired with a tweezer style handpiece, this unit comes with a hot knife blade handpiece. (PN: FT8003-02) and the system INCLUDES the knife blade tip (PN: G3-1601)

Because of the different handpiece paired with this system, the holder used is also different but incorporates the same safety and anti-FOD features as the holder for the other handpiece.
