Adjustable Diameter Sleeve With Easy On, Easy Off Access

GRIP WRAP (GWN) is a lightweight, abrasion resistant sleeving with a unique hook sealing system that eliminates spot taping and does not require an open end for installation. The sleeving permits easy access for inspection, rework, or replacement of components.

Grip Wrap provides cut-through and abrasion protection, and is easily applied to areas restricted by breakouts and large end fittings. It can be used to bundle wire harnesses, and can also be used to substitute molded channels.

The unique Grip Wrap system provides a variety of sealing and mounting options to accommodate any harnessing or cable management application.

One Size - Multiple Possibilities

Grip Wrap can be screwed in place for a permanent wire duct.
