

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

14-stage ripple carry binary counter/divider and oscillator

Datasheet - production data

Features

- Medium speed operation
- Common reset
- Fully static operation
- Buffered inputs and outputs
- Quiescent current specified up to 20 V
- 5 V, 10 V and 15 V parametric ratings
- Input leakage current: $I_l = 100 \text{ nA}$ (max.) at $V_{DD} = 18 \text{ V}$, $T_A = 25 \text{ }^\circ\text{C}$
- 100% tested for quiescent current
- ESD performance
 - HBM: 1 kV
 - MM: 200 V
 - CDM: 1 kV

Applications

- Automotive
- Industrial
- Computer
- Consumer

Description

The HCF4060 device is a monolithic integrated circuit fabricated in MOS (metal oxide semiconductor) technology available in SO16 and PDIP16 packages.

The HCF4060 device consists of an oscillator section and 14 ripple carry binary counter stages.

The oscillator configuration allows design of either RC or crystal oscillator circuits. A RESET input is provided which resets the counter to the all 0's state and disables the oscillator. A high level on the RESET line accomplishes the reset function. All counter stages are master slave flip-flops. The state of the counter is advanced one step in binary order on the negative transition of ϕ_1 (and ϕ_0). All inputs and outputs are fully buffered. Schmitt trigger action on the clock pin permits unlimited clock rise and fall time.

Table 1. Device summary

Order code	Temperature range	Package	Packaging	Marking
HCF4060M013TR	-55/+125 °C	SO16	Tape and reel	HCF4060
HCF4060YM013TR ⁽¹⁾	-40/+125 °C	SO16 (automotive version)	Tape and reel	HCF4060Y
HCF4060BEY	-55/+125 °C	PDIP16	Tube	HCF4066BE

1. Qualification and characterization according to AEC Q100 and Q003 or equivalent, advanced screening according to AEC Q001 and Q002 or equivalent.

3 Electrical characteristics

Absolute maximum ratings are those values beyond which damage to the device may occur. Functional operation under these conditions is not implied. All voltage values are referred to V_{SS} pin voltage.

Table 3. Absolute maximum ratings

Symbol	Parameter	Value	Unit
V_{DD}	Supply voltage	-0.5 to +22	V
V_I	DC input voltage	-0.5 to $V_{DD} + 0.5$	
I_I	DC input current	± 10	mA
P_D	Power dissipation per package	200	mW
	Power dissipation per output transistor	100	
T_{op}	Operating temperature	-55 to +125	°C
T_{stg}	Storage temperature	-65 to +150	

Table 4. Recommended operating conditions

Symbol	Parameter	Value	Unit
V_{DD}	Supply voltage	3 to 20	V
V_I	Input voltage	0 to V_{DD}	
T_{op}	Operating temperature	-55 to 125	°C

Table 5. DC specifications⁽¹⁾

6 Revision history

Table 10. Document revision history

Date	Revision	Changes
29-Oct-2012	5	Updated Features (added ESD values), added Applications . Updated Table 1 (reformatted table, added order codes, temperature range, marking, updated package and packaging, added note 1.). Moved Description to page 2, updated Description (unified part numbers and package names). Updated Section 2 to Section 4 (added titles and numbering). Reformatted Section 4 (added ECOPACK text, Figure 8 , Figure 9 , Table 7 and Table 8 , unified package names). Minor corrections throughout document.
02-May-2013	6	Updated Features (ESD values) Added Ordering information
