imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

HEF4028B MSI

DESCRIPTION

The HEF4028B is a 4-bit BCD to 1-of-10 active HIGH decoder. A 1-2-4-8 BCD code applied to inputs A_0 to A_3 causes the selected output to be HIGH, the other nine will be LOW. If desired, the device may be used as a 1-of-8 decoder with enable; 3-bit octal inputs are applied to inputs A_0 , A_1 and A_2 selecting an output O_0 to O_7 . Input A_3 then becomes an active LOW enable, forcing the selected output LOW when A_3 is HIGH. The HEF4028B may also be used as an 8-output (O_0 to O_7) demultiplexer with A_0 to A_2 as address inputs and A_3 as an active LOW data input. The outputs are fully buffered for best performance.

HEF4028BP(N):	16-lead DIL; plastic					
	(SOT38-1)					
HEF4028BD(F):	16-lead DIL; ceramic (cerdip)					
	(SOT74)					
HEF4028BT(D):	16-lead SO; plastic					
	(SOT109-1)					
(): Package Designator North America						

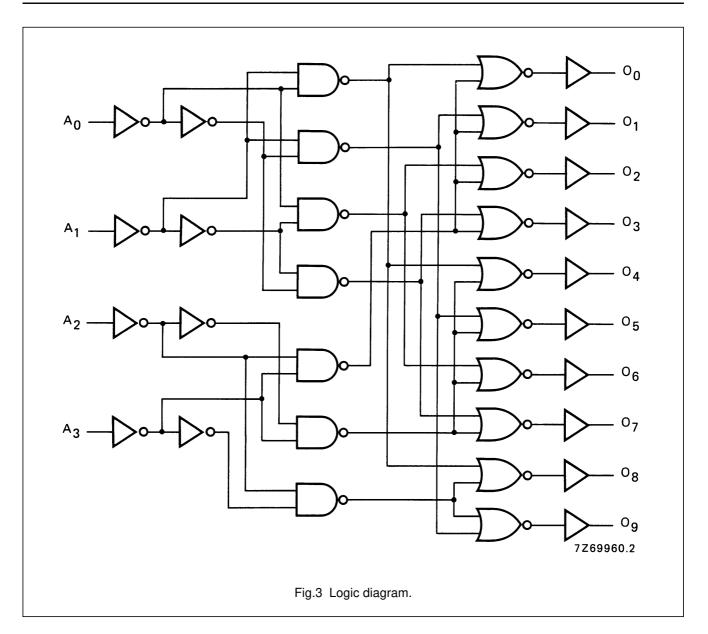

PINNING

A ₀ to A ₃	address inputs, 1-2-4-8 BCD
O_0 to O_9	outputs (active HIGH)

Notes

1. H = HIGH state (the more positive voltage) L = LOW state (the less positive voltage)

2. Extraordinary states.
