

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Electronic hot-air gun with automatic temperature control and cool-air stage

Continuously adjustable, electronically monitored hot air 50°C stage for cleaning, or cooling. For professionals and do-it-yourselfers.

The built in **temperature sensor** regulates and monitors electronically the temperature set, making it possible to use special reduction nozzles, and protecting the heating element from overheating.

The selectable **cool-air stage** allows the hot-air gun to be used for drying, cleaning, or cooling.

Technical Specifications

Voltage: 120 volts AC

Output: 1500 watts

Temperature:

Step 1: 120° F

Step 2: 120° F - 1100° F

Air Flow:

Step 1: 17.6 cfm

Step 2: 9.5 cfm

Step 3: 17.6 cfm

Weight: 30 oz.

with cord and plug

New:
continuously
variable temperature

New:
three-stage switch

Different applications require differing temperature ranges
The electronically regulated temperature makes this a very flexible tool.

An extensive range of accessories (bottom right illustration) enlarges the scope of application of this hot air gun to more than 100 possible uses. The accessories comprise special nozzles for mounting on the ejector tube, auxiliary tools, such as spatulas and scrapers, and plastic rods for plastic welding.

Hot air with a system:

- Thawing out
- Stripping paint
- Softening glued joints
- Shrink-fitting
- Shaping
- Disinfecting
- Plastic welding
- Soldering
- Drying
- Welding asphalt felt
