

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Honeywell

HOA7720/7730 Series

Connectorized Transmissive Optoschmitt Sensor

DESCRIPTION

The HOA7720/7730 Series consists of an infrared emitting diode facing an Optoschmitt detector encased in a black thermoplastic housing. The photodetector consists of a photodiode, amplifier, voltage regulator and Schmitt trigger with either of two output configurations:

- Totem pole (HOA7720-M11)
- Open collector (HOA7730-M11)

The totem pole output is well-suited for applications which require fast transition times. The open collector allows the output of the sensor to interface with circuit elements driven by supply voltages other than Vcc supply.

The inverting logic provides a high output when the optical path is interrupted, and a low output when the path is clear.

FEATURES AND BENEFITS

- Direct TTL interface
- No interface circuits required
- Inverting logic
- Two output options
- High resolution
- 3.00 mm [0.118] slot width
- Integral 3-pin connector

The infrared emitting diode is biased internally, eliminating the need for any external circuitry. Interconnection is simplified through the use of the integral Tyco three-pin connector.

Both the emitter and detector have a $0.508 \text{ mm} \times 1,78 \text{ mm}$ [$0.020 \text{ in} \times 0,070 \text{ in}$] vertical aperture. The narrow aperture is ideal for use in applications in which the maximum rejection of ambient light is important, and the maximum position resolution is desired.

The HOA7220/7330 series employ plastic molded components. Housing material is opaque polycarbonate. Housings are soluble in chlorinated hydrocarbons and ketones. Recommended cleaning agents are methanol and isopropanol.

POTENTIAL APPLICATIONS

Industrial:

- Flag presence/absence detection
- Edge detection
- · Rotary/linear encoders

Medical:

- · Edge sensing for labels and paper
- Needle presence/absence detection
- End of motion/travel sensing
- Rotary/linear encoders

HOA7720/7730 Series

Table 1. HOA7720-M11 and HOA7730-M11 Absolute Maximum Ratings (At 25 °C [77 °F] free air temperature unless otherwise noted.)

Characteristic	Parameter			
Operating temperature range	-40 °C to 70 °C [-40 °F to 158 °F]			
Storage temperature range	-40 °C to 85 °C [-40 °F to 185 °F]			
Power dissipation	220 mW			
Supply voltage	5.5 V			
Supply current	40 mA			
Low level output current	12.8 mA			
Duration of output: short to Vcc or ground	1.0 s			
Applied output voltage ¹	35 V			

Notes:

Table 2. HOA7720-M11 Electrical Characteristics (At 25 °C [77 °F] unless otherwise noted.)

Characteristic	Symbol	Min	Тур.	Max	Unit	Test Condition
Operating supply voltage ¹	V _{CC}	4.5	-	5.5	V	T _A = 25 ^o C
Supply current	I _{CC}	-	-	40	mA	$V_{CC} = 5.5 \text{ V}$
Low level output voltage ²	V_{OL}	_	_	0.4	V	$V_{CC} = 4.5 \text{ V}, I_{OL} = 12.8 \text{ mA}$
High level output current ²	V_{OH}	2.4	_	_	V	$V_{CC} = 4.5 \text{ V}, I_{OH} = -800 \mu\text{A}$
Short circuit output current	los	-20	_	-100	mA	$V_{CC} = 5.25 \text{ V}, \text{ Output} = \text{GND}$
Hysteresis ³	HYST	_	50	_	%	_
Propagation delay, low-high, high-low	t _{PLH} , t _{PHL}	-	5	-	μs	$V_{CC} = 5 \text{ V}$
Output rise time, output fall time	t_r,t_f	_	70	_	ns	RL = 8 TTL loads

Notes:

- 1. Add a bypass capacitor, 0.1 μF typ., between Vcc and GND near the device in order to stabilize power supply line.
- 2. Output is HI when the optical path is interrupted.
- 3. Hysteresis is defined as the difference between the operating and release threshold intensities and is expressed as a percentage of the operate threshold intensity.

Table 3. HOA7730-M11 Electrical Characteristics (At 25 °C [77 °F] unless otherwise noted.)

Characteristic	Symbol	Min	Тур.	Max	Unit	Test Condition
Operating supply voltage ¹	V_{CC}	4.5	-	5.5	V	T _A = 25 ^o C
Supply current	Icc	-	-	40	mA	$V_{CC} = 5.5 \text{ V}$
Low level output voltage ²	V_{OL}	_	_	0.4	٧	$V_{CC} = 4.5 \text{ V}, I_{OL} = 12.8 \text{ mA}$
High level output current ²	I _{OH}	-	_	100	μΑ	$V_{CC} = 4.5 \text{ V}, V_{OH} = 28 \text{ V}$
Hysteresis ³	HYST	-	50	-	%	_
Propagation delay, low-high, high-low	t _{PLH} , t _{PHL}	_	5	_	μs	$V_{CC} = 5 V$
Output rise time, output fall time	t_r , t_f	-	70	-	ns	RL = 390 Ω

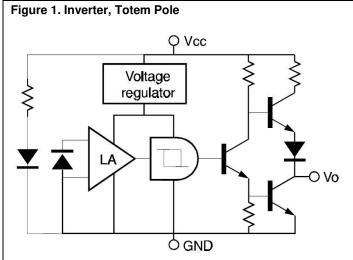

Notes:

- 1. Add a bypass capacitor, 0.1 μF typ., between Vcc and GND near the device in order to stabilize power supply line.
- 2. Output is HI when the optical path is interrupted.
- 3. Hysteresis is defined as the difference between the operating and release threshold intensities. Expressed as a percentage of the operate threshold intensity.

Order Guide

Catalog Listing	Description
HOA7720-M11	Transmissive Optoschmitt sensor, totem pole output
HOA7730-M11	Transmissive Optoschmitt sensor, open collector output

PERSONAL INJURY

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the

product could result in personal injury.
Failure to comply with these instructions could result in death or serious injury.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages. or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

▲ WARNING

MISUSE OF DOCUMENTATION

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product

Failure to comply with these instructions could result in death or serious injury.

SALES AND SERVICE

Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office or:
