imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Current Transducer HTB 50 .. 400 - P and HTB 50 .. 100 - TP

For the electronic measurement of currents: DC, AC, pulsed..., with a galvanic isolation between the primary circuit (high power) and the secondary circuit (electronic circuit).

	for PCB soldering		

Notes : ¹⁾ -TP version is equipped with a primary bus bar.

²⁾ Operating at $\pm 12V \le Vc \le \pm 15V$ will reduce the measuring range.

³⁾ Derating is needed to avoid excessive core heating at high frequency.

Features

- Hall effect measuring principle
- Galvanic isolation between primary and secondary circuit
- Isolation voltage 2500 V
- Low power consumption
- Wide power supply: ± 12 ..15 V
- Primary bus bar option for 50 A and 100 A version for ease of connection

Advantages

- Small size and space saving
- Only one design for wide current ratings range
- High immunity to external interference.

Applications

- AC variable speed drives
- Static converters for DC motor drives
- Battery supplied applications
- Uninterruptible Power Supplies (UPS)
- Switched Mode Power Supplies (SMPS)
- Power supplies for welding applications

Application domain

Industrial

Current Transducer HTB 50 .. 400-P and HTB 50 .. 100-TP

Isolation characteristics				
$oldsymbol{V}_{e}^{d}$ $oldsymbol{V}_{e}^{e}$ $oldsymbol{V}_{w}$	Rms voltage for AC isolation test, 50 Hz, 1 min Partial discharge extinction voltage rms @ 10pC Impulse withstand voltage 1.2/50 µs	2.5 > 500 4	kV V kV	
dCp dCl CTI	Creepage distance Clearance distance Comparative tracking index (Group IIIa)	> 4.5 > 4.5 275	mm mm	

Application examples

According to EN 50178 and CEI 61010-1 standards and following conditions :

- Over voltage category III

- Pollution degree 2
- Heterogeneous field

	EN 50178	IEC 61010-1
Single isolation	300 V	300 V
Reinforced isolation	150 V	150 V

Safety

This transducer must be used in electric/electronic equipment with respect to applicable standards and safety requirements in accordance with the manufacturer's operating instructions.

Caution, risk of electrical shock

When operating the transducer, certain parts of the module can carry hazardous voltage (eg. primary busbar, power supply).

Ignoring this warning can lead to injury and/or cause serious damage.

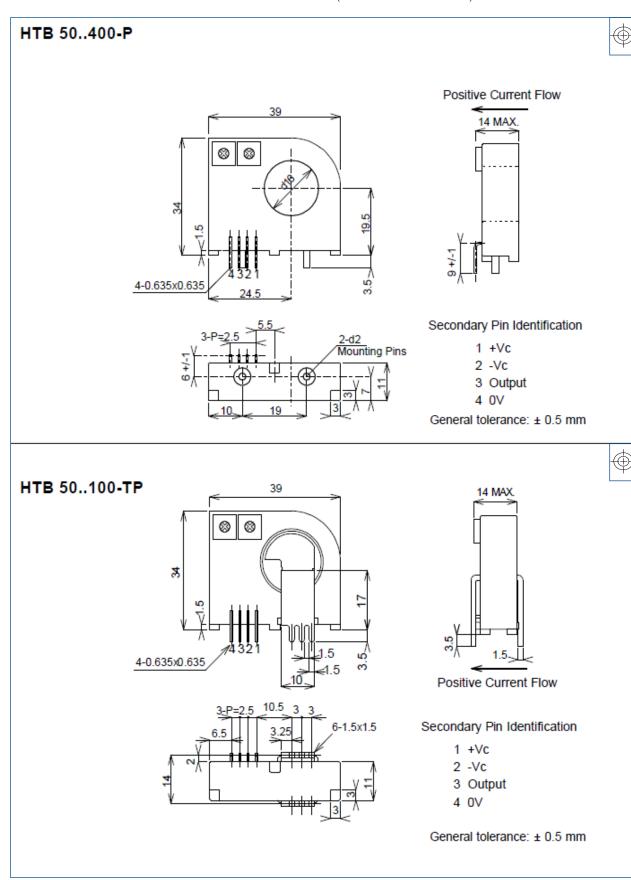

This transducer is a built-in device, whose conducting parts must be inaccessible after installation.

A protective housing or additional shield could be used.

Main supply must be able to be disconnected.
