imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Analog Inductive Proximity Detectors

The analog sensors offer an output voltage variation which is linear and proportional to the distance of the object being detected. The output voltage will be reduced as the object approaches the sensor.

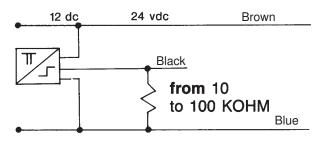

| Form | M 18 x 1 x 80 |
|---------------------------------------|----------------------|
| Sensing distance in linear zone (mm) | 5 |
| Housing | Stainless Steel |
| Connection type | PVC 2.0 meter cable |
| Part number reference | IMB1805T |
| Min./max. supply voltage | 12 to 24 VDC |
| Own consumption (Io) | 1 mA |
| Output voltage at 5mm | 3 V |
| Voltage limits in linear zone | 0.4 to 3 V at 24 VDC |
| Load resistance | 10 to 100 k |
| Constant ratio in linear zone At 24 V | 52 mV / 0.1mm |
| At 12 V | 26 mV / 0.1mm |
| Switching frequency | 10 kHz |
| Operating temperature | 0 to 60°C |

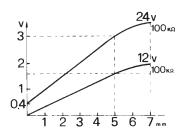

Accessories

Mounting flanges, see page 3/102 Connectors, see pages 3/100 to 3/101 Wiring
