

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

### **Technical Data Sheet**

# 1.6mm Side Looking Infrared Emitting Diode

# **IR958-8C**

#### **Features**

- Low forward voltage
- Peak wavelength  $\lambda$  p=940nm
- High reliability
- This product itself will remain within RoHS compliant version.

### **Descriptions**

The <u>IR958-8C</u> is a GaAs infrared emitting diode. The miniature side-facing device is a chip that emits radiation from the side of the clear package.

## **Applications**

- VCR
- Floppy disk drive
- Automatic stroboscope
- Cassette type recorder
- Optoelectronic switch
- Photo interrupter

#### **Device Selection Guide**
