## Klein's Journeyman™ Pump Pliers... Get a Hold on Comfort and Durability

Introducing Klein's new Journeyman pump pliers, designed with a difference you can see and feel every time you use the tool. Six machined tongue and grooves provide smooth jaw adjustments up to a maximum of 1-3/4" (44 mm), robust teeth for sure-gripping action, induction hardened jaws for long life and a tension-loaded joint that reduces handle wobble for sure gripping. Also, the state-of-the-art handles are made from a dual material molding that allows for a softer, more comfortable grip on the outer surface and a harder, more durable grip on the inner surface and handle ends.

See and feel the difference of a Klein Journeyman, and you will know why "professionals are known by the tools they own™".

### Features

**▲ WARNINGS:**

- Always wear approved eye protection.
- NOT insulated. Plastic-dipped or slip-on plastic handles are NOT intended for protection against electrical shock.
