

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

This product is a waterproof circular connector with one-touch lock mechanism developed as an interface for industrial devices. Available in all-plastic type JN1 and metal material partially used robust type JN2. Both are in compact design and are suitable for all kinds of electronic devices .  
(patent, registration of design have filed)

Features

- [JN1]
- All plastic lightweight connector
  - Easy and sure mating with push-and-twist type one-touch lock mechanism
  - Receptacle is available in 2types. Through-hole type and soldering type. Through-hole type can be mounted directly on the board. Plug is available in soldering type and crimp connection type.
  - Relay receptacle (crimp connection type) is available in cable connecting type and wall mounting receptacle type.
  - Plug is available in straight, angle and individual type. The direction of the cable leader of the angle plug can be set in four directions by rotating the plug 90 degrees in each direction.
  - Body earth structure is employed for receptacle of 4pins.
  - Mating height of angle plug is 30.8mm (from cabinet surface). Individual plug is low profile 16.9mm.
  - Waterproof and dustproof that conform to IP67 class.
  - Superb environmental proof performance such as vibration proof and oil proof.
  - Applicable to conduit mounting
- [JN2]
- Compatible to JN1, considerably reinforced by using metal material in part of the outer shell.(breaking strength three fold increase)
  - Crimp contact is in common with JN1.
  - Mating height of angle plug is low profile 31.3mm (from cabinet surface).
  - Waterproof and dustproof that conform to IP67 class.
  - Superb environmental proof performance such as vibration proof and oil proof.
  - Applicable to conduit mounting

General Specifications

[JN1]

Item	Specifications and performance	
No. of contacts	10 pins	4pins
Rated current	3A/ pins (#22 size contact)	5A/ pins (#20 size contact)
Rated voltage	200VAC	200VAC (degree of pollution 3, excess voltage category 3)
Withstanding voltage	900VAC(per minute)	2000VAC(per minute)
Insulation resistance	More than 1000M ohm(DC500V energized )	More than 1000M ohm (DC500V energized )
Waterproof	IP67	IP67
Airtightness (Individually waterproofed)	2.9× 10 <sup>4</sup> PA ( per minute ) without leakage	2.9× 10 <sup>4</sup> PA ( per minute ) without leakage
Operating temperature	-20 Deg. C to +125 Deg.C	-20 Deg. C to +125 Deg.C
Specification of wire connection	Receptacle: Through-hole, Soldering connection (Max.0.3mm <sup>2</sup> ) Plug: Crimp connection (AWG20 to 28)	Receptacle: Soldering connection (Max.0.75mm <sup>2</sup> ) Plug: Soldering connection (Max 1.25mm <sup>2</sup> )
