

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

The J-Pro™ Cable Support System is designed to provide a competitive alternative to metal J hooks for routing cables throughout the physical infrastructure. This system provides complete bend radius control and includes many easy to use mounting options to provide the lowest installed cost. The selection of multiple sizes, colors, and pre-riveted J hook assemblies meet the requirements of a wide variety of applications and are suitable for use in air handling spaces.

Available in four sizes and select colors

JP75 Series

JP131 Series

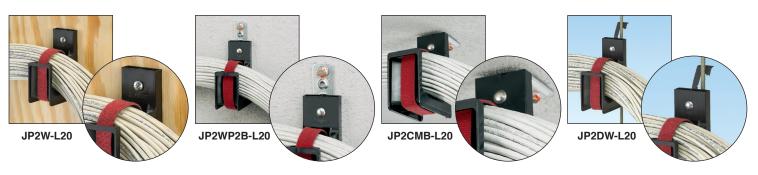

JP2 Series

JP4 Series

Key Features

Benefits

Multiple size J hooks	Available in 3/4", 1 5/16", 2", and 4" bundle capacities to meet requirements of a variety of applications throughout the physical infrastructure
Complete horizontal and vertical 1" bend radius control	Helps prevent degradation of cable performance Prevents pinch points that could cause damage to cable
UL 2043 and CAN/ULC S102.2 listed	Suitable for use in air handling spaces Listed within UL file number E136577 Listed within ULC file number R21673
Color options	Provide means to segregate and identify cable bundles for specific applications, such as data, voice, security, fire alarm, or other applications that require a designated pathway
Pre-riveted assemblies	Allow for attachment to ceilings, beams, threaded rods, drop wires, and underfloor supports to meet requirements of a variety of applications
Cable tie channel	Allows user to install 3/4" Tak-Ty® Cable Tie and provides a method to retain and manage cable bundles
Non-metallic J hook	Prevents cables from coming in contact with metal
