

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

SparkFun Decade Resistance Box

KIT-13006 ROHS ✓ ✱

Description: This is the SparkFun Decade Resistance Box, an involved PTH soldering kit that allows you to quickly and accurately dial in a specific resistance value between 0 and 999,990 Ω , in 10 Ω increments. The concept is simple, a decade box is a tool that contains resistors of many values that can be accessed via mechanical switches. All you need to do is just adjust the knobs to output any of the discrete resistances offered by the box. Once assembled, each kit will have controls that correspond to the digits in a decimal number - a control for the ones position, a control for the tens position, a control for the hundreds position, and so on.

The SparkFun Decade Resistance Box not only provides a challenging soldering experience but also a great tool for any workbench. In the *Documents* section below you will find an in depth Hookup Guide that provides you with assembly instructions, an enclosure walkthrough, and an operation guide.

Note: The rotary switches included with the Decade Resistance Box can be very difficult to turn! Make sure to check out the *Recommended Products* section below for knobs that will work with this kit.

Includes:

- 1x Decade Resistance Box PCB
- 1x Red Binding Post
- 1x Black Binding Post

- 5x Rotary Switch - 1-pole 10-position, with dress washer and hex nut
- 9x 10 Ω Resistor - $\frac{1}{4}$ W, 1%
- 9x 100 Ω Resistor - $\frac{1}{4}$ W, 1%
- 9x 1000 Ω Resistor - $\frac{1}{4}$ W, 1%
- 9x 100K Ω Resistor - $\frac{1}{4}$ W, 1%
- 9x 10K Ω Resistor - $\frac{1}{4}$ W, 1%
