Electrician's Metal Cutting Circular Saw

14.4v
Lithium-Ion

The Greenlee circular saw is designed primarily to cut metal—almost any metal. This includes conduit, strut, and threaded rod. Plus, the blade doesn't leave burrs, so chasing threads or filing the edges isn't needed. The full surround blade guard contains most of the chips, and with its compact size, it will work where larger saws can't. It even has a LED work light so you can make straight cuts in dark locations.
