Microscope Lighting/Digital Options

LFOD150

Old item no.: LFOD150

150W ILLUMINATOR W/ DIMMER

Fiber Optic Illuminator features a dimmable 150-watt halogen lightsource which produces up to 6450 footcandles at 4.5" working distance. A dimmer switch enables an operator to select the exact amount of light desired. Even for sensitive jobs such as wire bonding or soldering of fine-pitch components, it delivers plenty of light. The LFOD150 can be placed on the worksurface in its conventional position, facing the operator, or since there are "rubber feet" on its back, placed in a vertical position to occupy an even smaller footprint. A choice of light transmitters can be purchased separately.
