

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Address: A1208, Overseas Decoration Building, #122 Zhenhua RD., Futian, Shenzhen, China

LRTB R48G

Das Bauteil ist speziell für den Einsatz in Vollfarb-Videowänden entwickelt worden. Die 4-lead common anode Technologie lässt eine unabhängige Ansteuerung aller Chips zu und bietet dadurch eine additive Farbmischung. Durch die kompakten Gehäuseabmaße ist es bestens für Videowände mit hoher Auflösung und geringem Pixelabstand geeignet.

Merkmale

- **Gehäusetyp:** SMT Gehäuse, Harz Verguss
- **Farbe:** Rot/True Grün/Blau, 623 nm (rot), 530 nm (true grün), 471 nm (blau)
- **Abstrahlwinkel:** Lambertscher Strahler (120°)
- **Chiptechnologie:** InGaAlP (rot), InGaN (true grün, blau)
- **Lötmetode:** Reflow lötbar
- **Vorbehandlung:** nach JEDEC Level 4
- **ESD-Festigkeit:** ESD-sensitiv

This device is especially designed for full color video walls. The 4-lead common anode technology admits an additive mixture of color stimuli by independent driving of each chip. Very compact package size fits best for high resolution narrow pitch video walls.

Features

- **package:** SMT package, epoxy resin
- **color:** red/true green/ blue, 623 nm (red), 530 nm (true green), 471 nm (blue)
- **viewing angle:** Lambertian Emitter (120°)
- **chiptechnology:** InGaAlP(red), InGaN (true green, blue)
- **soldering methods:** reflow solderable
- **preconditioning:** acc. to JEDEC Level 4
- **ESD-withstand voltage:** sensitive device

Hauptanwendungen

- Videoleinwände im Innenbereich
- Vollfarb-Displays

Main Applications

- Indoor Video Walls
- full color display

Bestellinformation**Ordering Information**

Typ Type	Emissionsfarbe Color of Emission	Lichtstärke ¹⁾ Seite 29		
		Luminous Intensity ¹⁾ page 29 $I_F = 10 \text{ mA (red), } 5 \text{ mA (true green), } 5 \text{ mA (blue)}$ $I_V \text{ (mcd)}$	red	true green
LRTB R48G	red true green blue	56 ... 140	125 ... 315	28 ... 71

Bestellinformation**Ordering Information**

Typ Type	Bestellnummer Ordering Code
LRTBR48G-P7Q7-1+R5S5-35+NP-69	Q65111A5259

Anm: Die oben genannten Typbezeichnungen umfassen die bestellbaren Selektionen. Diese bestehen aus wenigen Helligkeitsgruppen (siehe [Seite 7](#) für nähere Informationen). Es wird nur eine einzige Helligkeitsgruppe pro Gurt geliefert. Z.B.: LRTB R48G-P7Q7-1+R5S5-35+NP-69 bedeutet, dass auf dem Gurt nur eine der Helligkeitsgruppen TE bis UC enthalten ist.

Um die Liefersicherheit zu gewährleisten, können einzelne Helligkeitsgruppen nicht bestellt werden.

Gleiches gilt für die Farben, bei denen Wellenlängengruppen gemessen und gruppiert werden. Pro Gurt wird nur eine Wellenlängengruppe geliefert. Z.B.: LRTB R48G-P7Q7-1+R5S5-35+NP-69 bedeutet, dass auf dem Gurt nur eine der Wellenlängengruppen -3, -4, oder -5 enthalten ist (siehe [Seite 8](#) für nähere Information). Z.B.: LRTB R48G-P7Q7-1+R5S5-35+NP-69 bedeutet, dass das Bauteil innerhalb der auf [Seite 4](#) spezifizierten Grenzen geliefert wird.

Um die Liefersicherheit zu gewährleisten, können einzelne Wellenlängengruppen nicht bestellt werden.

Note: The above Type Numbers represent the order groups which include only a few brightness groups (see [page 7](#) for explanation). Only one group will be shipped on each reel (there will be no mixing of two groups on each reel). E.g. LRTB R48G-P7Q7-1+R5S5-35+NP-69 means that only one group TE to UC will be shippable for any one reel. In order to ensure availability, single brightness groups will not be orderable.

In a similar manner for colors where wavelength groups are measured and binned, single wavelength groups will be shipped on any one reel. E.g. LRTB R48G-P7Q7-1+R5S5-35+NP-69 means that only 1 wavelength group -3, -4, or -5 will be shippable (see [page 8](#) for explanation). E.g. Wellenlängengruppen -2, -3, -4, -5, -6, -7, -8 oder -9 enthalten ist (siehe [Seite 8](#) für nähere Information). Z.B.: LRTB R48G-P7Q7-1+R5S5-35+NP-69 means that the device will be shipped within the specified limits as stated on [page 4](#).

In order to ensure availability, single wavelength groups will not be orderable.
