

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# **LYN**<sup>™</sup> Silicon Photomultiplier Module LynX-A-33-W50-T1-X

Excelitas' LynX™ Silicon Photomultiplier Module series is a compact, easy-to-use, analogue low light level detection (L³D) module employing Excelitas' leading-edge C30742 Series Silicon Photomultiplier (SiPM) chip in a hermetic TO-8 package with thermoelectric cooler, a stable voltage power supply circuit, and a low noise transimpedance amplifier.

With this compact voltage output module, the preamplifier gain is optimized to obtain maximum dynamic range and linearity with the SiPM at pre-set operating voltage. It outperforms other SiPM solutions in key performance parameters such as higher photon detection efficiency (PDE) and better signal-to-noise ratio across the full 400 nm - 900 nm wavelength spectrums.

The LynX<sup>™</sup> SiPM module is offered as a standard, commercial- off-the-shelf (COTS) product. It contains a  $3x3 \text{ mm}^2$  active area SiPM with  $50x50 \text{ }\mu\text{m}^2$  microcells for optimum fill factor and PDE. It has two standard bandwidths: 1MHz and 10MHz, with either AC or DC coupled output options. The module is fully ROHS compliant. Power cable for the module is available as well as a 1mmx1mm chip configuration module.

In addition to our standard, off-the-shelf SiPM module, Excelitas also offers customized modules tailored from our standard designs. Depending upon customer requirements, modifications can include bandwidth optimization, FC-connectorized packaging, photon counting digital output, and customized testing.

#### **Key Features**

- High responsivity:
  - 0.75 V/nW @ 525 nm (typ.)
  - 0.4 V/nW @ 700 nm (typ.)
- Excellent signal to noise ratio as compared to traditional PMTs
- High dynamic range and linearity
- Low NEP
- Built-in TE cooler
- Compact and user-friendly
- ROHS-compliant

#### **Applications**

- Fluorescence measurement
- Analytical instrumentation
- Flow Cytometry

Table 1. Electro-optical characteristics

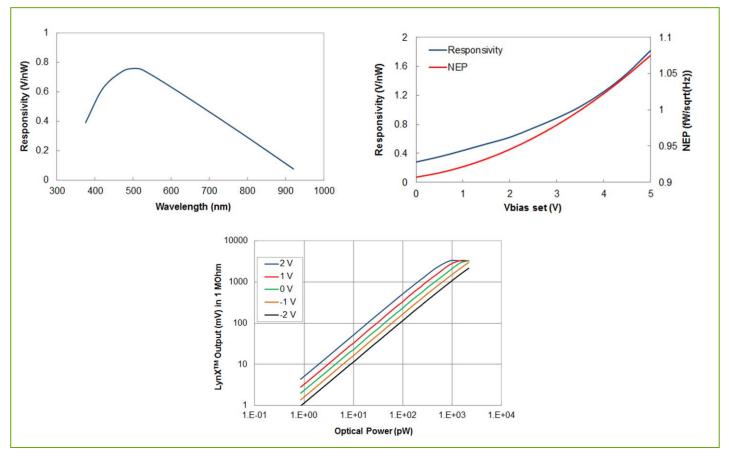

Test conditions: Case temperature = 22°C,  $V_{in}$  = +5V,  $R_L$  = 50 $\Omega$  DC coupled

Detector					
Parameter	Condition	Min.	Тур.	Max.	Unit
Effective Active Area			3 x 3		mm
Num. Of Microcells			3600		
Microcell Size			50 x 50		μm
Spectral Bandwidth		350		950	nm
Peak Wavelength			500		nm
lodule					
Parameter	Condition	Min.	Тур.	Max.	Unit
Positive Supply Voltage		4.5	5.0	5.5	V
Positive Supply Current			350	1000	mA
Power Up Settling Time			15		S
Output Voltage Swing	High impedance			+5	V
Responsivity	@525 nm in 50 Ohm		0.75		V/nW
Bandwidth		1	1.5		MHz
NEP			1.0		fW/(Hz) <sup>1/2</sup>
Output offset voltage			1.5		mV
Storage Temperature		-10		+50	°C
Operating Temperature		+5		+50	°C

#### **RoHS Compliance**

This series of APDs are designed and built to be fully compliant with the European Union Directive 2011/65/EU – Restriction of the use of certain Hazardous Substances (RoHS) in Electrical and Electronic equipment.

Excelitas Technologies' Silicon Photomultiplier development program is supported by financial contribution of the Government of Canada.

#### **About Excelitas Technologies**

Excelitas Technologies is a global technology leader focused on delivering innovative, customized solutions to meet the detection, lighting, and other high-performance technology needs of OEM customers. From medical applications to analytical instrumentation, clinical diagnostics, industrial, safety and security, and aerospace and defense applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 5,000 employees in North America, Europe and Asia, serving customers across the world.
