

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Amgis has developed a line of fully enclosed medical isolation transformers for North American applications which features toroidal transformer technology. These units provide additional safety and protection for a wide range of medical applications. When electronic devices are being used in a medical environment, the MEDBOX units will bring the equipment into compliance with the UL 60601 medical standard. The transformers are designed for 120V 60Hz input with 120V output. Five power ratings are available: 300VA, 600VA, 900VA, 1200VA and 1800VA. The transformers incorporate RFI filtering and in-rush current limiting. The toroidal transformer technology results in light weight, high efficiency, quiet operation, low temperature rise and minimum stray magnetic field.

The MEDBOX medical isolation transformers are intended to be used by medical OEM manufacturers desiring stand alone medical isolation transformer protection or hospitals looking to isolate electronic equipment from the power source.

Fully enclosed toroidal medical grade isolation transformers housed in a white enclosure

Five power ratings are available: 300VA, 600VA, 900VA, 1200VA and 1800VA.

Designed for 120V 60Hz North American operation

UL/c-UL listed to UL 60601-1. UL-file number E 346463.

Highly efficient toroidal technology resulting in compact size, reduced weight and low power losses.

Low leakage current design yielding less than 100  $\mu$ A leakage current.

Built in RFI filtering and in-rush current protection

Surge suppression

10 ft. hospital grade power cord

Duplex hospital grade receptacles

Illuminated On/Off circuit breaker

Floor standing or wall mount option

Custom designs available

OEM Manufacturers

Hospitals

Medical facilities
