Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

MCU Cards
for BIGPIC5™ development system

All Mikroelektronika's development systems feature a large number of peripheral modules expanding microcontroller's range of application and making the process of program testing easier. In addition to these modules, it is also possible to use numerous additional modules linked to the development system through the I/O port connectors. Some of these additional modules can operate as stand-alone devices without being connected to the microcontroller.

MCU Cards for BIGPIC5 Development System

The BIGPIC5 development system is supported by empty 64- and 80-pin MCU cards. Schematics provided herein show these MCU cards with soldered microcontrollers. Instead of microcontrollers used in these examples, you can choose and solder another ones. Prior to soldering, check which microcontrollers can be placed on the respective MCU card just to be sure that they are compatible.

Supported microcontrollers:

64-pin MCU cards support the following microcontrollers: PIC18F6520-PT, PIC18F6620-PT, PIC18F6720-PT, PIC18F6310-PT, PIC18F6410-PT, PIC18F6390-PT, PIC18F6490-PT, PIC18F6585-PT and PIC18F6680-PT.

80-pin MCU cards support the following microcontrollers: PIC18F8527-PT, PIC18F8622-PT, PIC18F8627-PT, PIC18F8722-PT, PIC18F8390-PT, PIC18F8490-PT, PIC18F8520-PT, PIC18F8620-PT, PIC18F8720-PT, PIC18F8310-PT, PIC18F8410-PT, PIC18F8585-PT and PIC18F8680-PT.
