PICtail™ Plus click Adapter

PID: MIKROE-2578

PICtail™ Plus click Adapter allows you to add click boards™ on the Explorer 16 Development Board from Microchip. It's an adapter with two mikroBUS™ sockets for click board connectivity.

Explore the click board™ range

PICtail™ Plus click Adapter acts as a host for two click boards™. With **more than 280 clicks in our shop** and the range constantly expanding you can make amazing combinations of functionalities.

Add WiFi connectivity, GPS, proximity or color sensing, temperature sensors and more.

Card edge connector

The PICtail™ Plus click Adapter plugs into the Samtec card edge connector onboard the Explorer 16 Development Board.

Explorer 16 Development Board

The Explorer 16 Development Board is a low-cost modular development system for Microchip's 16-bit and 32-bit microcontrollers. It supports devices from the PIC24, dsPIC and PIC32 families. A variety of families supported with processor Plug-In Modules (PIMs) for easy device swapping.

Key features

- Two mikroBUS™ sockets
- Samtec card connector
- Easy implementation

Specification

| | |
|------------------|--|
| Product Type | PICtail |
| Applications | An adapter with two mikroBUS™ sockets for the Explorer 16 development board from Microchip |
| On-board modules | two mikroBUS™ sockets |
