# Mirobot

The build-it-yourself WiFi drawing robot that teaches children about technology, programming and mathematics

#### What's in the box?

Everything you need to build your own robot, just add 4 x AA batteries and a felt tip! All additional features, such as line following, collision detection and sound, are included.

#### How do I use it?

Mirobot has been designed to be easily assembled by children aged 7 and up (with supervision) Once built, you can connect via WiFi and use apps to program it.

#### How it works

- 1. Mirobot comes as a kit to build yourself
- 2. Its easily assembled, with no tools
- 3. Connect via WiFi and program it with a web browser
- 4. Make it draw. Start learning to program!

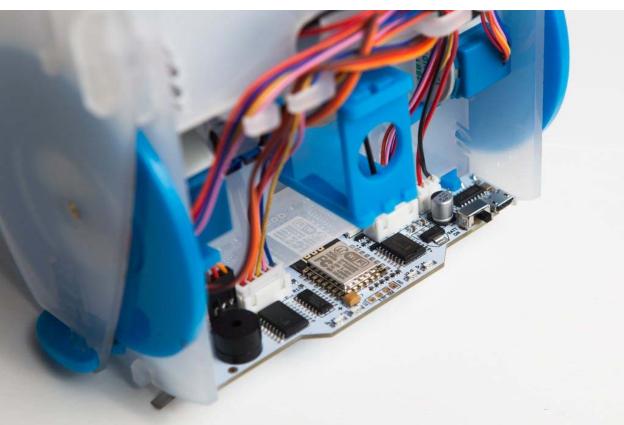

### It's all about the apps!

By making Mirobot easy to control, you can take advantage of lots of different apps that can control it in different ways, either directly from your browser or from any programming language.

**Explore Mirobot Apps** 

Mirobot Apps are currently available in nine different languages and more are being added all the time.
