

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# MMZ1005 Series Ferrite Bead Kit

## Automotive Grade Ferrite Chip Bead Kit

The TDK MMZ1005 Series ferrite chip beads are used to suppress noise in signal line circuits. They are effective at reducing noise simply by being placed into the circuit in series. Multilayer chip beads consist of ferrite material and a conductive paste layered together. Static characteristics of a chip bead are typically described as the impedance value  $Z$  at a frequency of 100MHz. While several different chip beads could provide the same impedance value at 100MHz, it is important to look at their individual frequency characteristics to determine which bead will work best for the circuit within the required frequency range. TDK offers several material types which provide various frequency characteristics for the MMZ1005 series chip beads.

### Features

- AEC-Q200 Qualified
- Noise reduction solution for general signal line
- Various frequency characteristics with different materials
- Countermeasures from general signals to high-speed signals
- Conforms to RoHS directive, halogen free, & compatible with lead-free soldering
- Standard operating temperature range of  $-55^{\circ}\text{C}$  to  $+125^{\circ}\text{C}$
- Storage temperature range of  $-55^{\circ}\text{C}$  to  $+125^{\circ}\text{C}$  (after PC board mounting)

### Applications

- ECUs
- Powertrains
- Body Controls
- Car Multimedia (Telematics)

Automotive

General Signal Line

[Datasheet](#)

## MMZ1005 Series Automotive Chip Bead Kit Includes:

**Case Size:** 1005 (1.0x0.5mm)  
**Impedance Range:** 10-1800 $\Omega$  ( $\pm 25\%$ )  
**Current Rating:** 100-550mA

Kit contains 260 pieces total—10 pieces per value

Now Available at:
