MS-326 - Mid Span Slit & Ring Tool (5mm-10mm) - Data Sheet

The **patented** MS-326 micro duct fiber cable slit and ring tool is designed to provide easy access into fiber optic cables specifically designed for use in micro ducts. These cables have a thin wall jacket design that is difficult to open without causing damage to the buffer tubes inside, but the MS-326 addresses that concern. The MS-326 will also slit open thin wall buffer tubes.

Building on the popularity of Jonard Tools' MS-6 and MS-26 fiber optic mid span slitting tools we've incorporated a ring feature into the MS-326 making it even more versatile.

The MS-326 consists of 5 precision slitting grooves and 5 ring grooves ranging in size from 5mm to 10mm.

Groove Sizes:

5.0 - 5.6mm | 6.0 - 6.6mm | 7.2 - 7.8mm | 7.8 - 8.4mm | 9.4 - 10mm

Tool designed for below Corning cables and other similar styles:

- Fiber MiniXtend Fast Access Binderless cables
- Fiber HD MiniXtend cables

MS-326
