Description

The N261-010-6MM-BL Augmented Cat6/Cat6a Pre-Terminated Copper Trunk Bundle (M/M) makes installation a breeze and saves you time, space and money. All termination, bundling and testing is done at the factory, so almost anyone can do the installation in your data center in less time. Designed for easy patching in switches and patch panels, this 10-foot assembly is constructed using 23 AWG solid conductor wire with a blue CMR-rated PVC jacket.
