Comments:

The Hakko N50B Series nozzles are a direct replacement for the N50 Series nozzles. Although there is a change in appearance, there is no change in performance or functionality. The N50B Series nozzles are for use with the FR-300 desoldering tool which utilizes a quick nozzle change system. The new N50B series nozzles will be offered in 6 different sizes ranging from 0.8mm to 1.6mm to accommodate various desoldering applications.

The Hakko N50 Series nozzles will be available while supplies last and will switch to the corresponding N50B part number accordingly.
