to MT-RJ.

Fiber optic patch cords include duplex LC, SC, ST and duplex MT-RJ connectors on both ends. Fiber optic pigtails include simplex LC, SC and ST on one end and open (unterminated) on the other end. Patch cords and pigtails meet requirements of TIA/EIA-568-C.3-1. The fiber connectors are FOCIS compliant or compatible and meet the requirements of TIA/EIA-455-21A.

### key features and benefits

100% performance tested	Assures that patch cords and pigtails are standard compliant
Riser rated jacket	Meets UL 1666 (OFNR) flame rating for standard compliant safety
Q.C. identification label	Quality control reference provides lifetime traceability of test data

## applications

- Provide interconnect and cross-connect of applications in entrance facilities, telecommunications rooms, data centers and at the desk
- Support network applications to interconnect pre-terminated cassettes in main distribution, horizontal distribution and equipment distribution areas

 Riser rated patch cords support installations that require this flame rating in specific environments
