

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# The Best PT for Package PLCs — NV

The NV Series of compact Programmable Terminals meet the basic needs for enhanced visibility, simplicity, and cost, and they go even further to provide superior PLC compatibility, easy operation, and cost performance.

# **V**isibility

# Beautiful, Easy-to-understand Displays

Instantly know the system status

## It is obvious in three color LED backlight

The monochrome models provide three backlight colors to perform status displays. For example, use green for normal

# **Easy Designing**

The slim design of NV-series PTs requires very little installation space.

#### Vertical Installation

The PT can be installed vertically to enable more applications. This enables more flexible designs.

### Global Application

## Multi-language Support and Safety Standard Compliance

You can switch parts labels and languages. Record up to sixteen character strings in different languages and change all labels at the same time. Switching the language during operation is also very easy. International safety standards have also been met so that you can easily export equipment or transport equipment overseas.

\* Including European languages

■ Safety Standards

## Handle Devices from Various Manufacturers Global Multivendor Support

You can connect the PT to OMRON or Mitsubishi Electric PLCs or to PLCs from many other global manufacturers. This lets you connect the NV-series PTs without changing the PLC. You can easily use a different PLC manufacturer for each project.

OMRON, Mitsubishi Electric, Keyence, Hitachi, Allen-Bradley, Siemens, etc.

## **PTs**

The lineup includes compact and horizontal models from 3.1-inch to 4.6-inch and QVGA models. Select the size and price that are best for each system.

## Serial Communications/Power Supply Connector

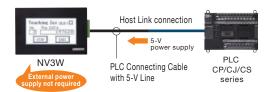

## Supply Power from the PLC NV3W Only Compatibility

With 5-V NV3W models, 5-V can be supplied from the PLC via the PLC Connecting Cable. This reduces wiring work and eliminates the need for a special power supply for the PT.

## ■ Supplying 5-V from the PLC

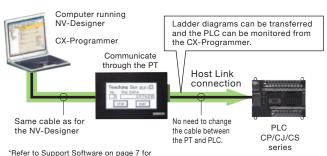

\*An XW2Z-200T-4 PLC Connecting Cable is required to supply power from the PLC. \*With 24-V PTs, power must be supplied from an external power supply.
