imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Important notice

Dear Customer,

On 7 February 2017 the former NXP Standard Product business became a new company with the tradename **Nexperia**. Nexperia is an industry leading supplier of Discrete, Logic and PowerMOS semiconductors with its focus on the automotive, industrial, computing, consumer and wearable application markets

In data sheets and application notes which still contain NXP or Philips Semiconductors references, use the references to Nexperia, as shown below.

Instead of <u>http://www.nxp.com</u>, <u>http://www.philips.com/</u> or <u>http://www.semiconductors.philips.com/</u>, use <u>http://www.nexperia.com</u>

Instead of sales.addresses@www.nxp.com or sales.addresses@www.semiconductors.philips.com, use **salesaddresses@nexperia.com** (email)

Replace the copyright notice at the bottom of each page or elsewhere in the document, depending on the version, as shown below:

- © NXP N.V. (year). All rights reserved or © Koninklijke Philips Electronics N.V. (year). All rights reserved

Should be replaced with:

- © Nexperia B.V. (year). All rights reserved.

If you have any questions related to the data sheet, please contact our nearest sales office via e-mail or telephone (details via **salesaddresses@nexperia.com**). Thank you for your cooperation and understanding,

Kind regards,

Team Nexperia

30 / 30 V, 400 / 220 mA N/P-channel Trench MOSFET

Rev. 1 — 29 July 2011

Product data sheet

1. Product profile

1.1 General description

Complementary N/P-channel enhancement mode Field-Effect Transistor (FET) in an ultra small and flat lead SOT666 Surface-Mounted Device (SMD) plastic package using Trench MOSFET technology.

1.2 Features and benefits

- Low threshold voltage
- Very fast switching
- Trench MOSFET technology

1.3 Applications

- Level shifter
- Power supply converter

- ESD protection up to 2 kV
- AEC-Q101 qualified
- Load switch
- Switching circuits

1.4 Quick reference data

Table 1. Quick reference data

Table 1.	Quick reference unta					
Symbol	Parameter	Conditions	Min	Тур	Мах	Unit
TR2 (P-ch	annel)					
V _{DS}	drain-source voltage	T _j = 25 °C	-	-	-30	V
V _{GS}	gate-source voltage		-8	-	8	V
I _D	drain current	V_{GS} = -4.5 V; T_{amb} = 25 °C	<u>[1]</u> _	-	-220	mA
TR1 (N-ch	nannel)					
V _{DS}	drain-source voltage	T _j = 25 °C	-	-	30	V
V _{GS}	gate-source voltage		-8	-	8	V
I _D	drain current	V_{GS} = 4.5 V; T_{amb} = 25 °C	<u>[1]</u> -	-	400	mA
TR1 (N-ch	nannel), Static character	ristics				
R_{DSon}	drain-source on-state resistance	$\label{eq:VGS} \begin{array}{l} V_{GS} = 4.5 \text{ V}; \text{ I}_{D} = 350 \text{ mA}; \\ T_{j} = 25 \text{ °C} \end{array}$	-	1	1.4	Ω
TR2 (P-ch	annel), Static character	istics				
R _{DSon}	drain-source on-state resistance	$\label{eq:VGS} \begin{array}{l} V_{GS} = -4.5 \ V; \ I_D = -200 \ mA; \\ T_j = 25 \ ^\circ C \end{array}$	-	2.8	4.1	Ω

[1] Device mounted on an FR4 PCB, single-sided copper, tin-plated and mounting pad for drain 1 cm².

30 / 30 V, 400 / 220 mA N/P-channel Trench MOSFET

2. Pinning information

Table 2.	Pinning	g information		
Pin	Symbol	Description	Simplified outline	Graphic symbol
1	S1	source TR1		54 53
2	G1	gate TR1		
3	D2	drain TR2		
4	S2	source TR2	0	$G_1 \xrightarrow{f_1} f_2 \xrightarrow{f_1} f_3 \xrightarrow{f_1} f_2$
5	G2	gate TR2		
6	D1	drain TR1	SOT666 (SOT666)	S1 S2 017aaa262

3. Ordering information

Table 3. Orde	ering information		
Type number	Package		
	Name	Description	Version
NX3008CBKV	SOT666	plastic surface-mounted package; 6 leads	SOT666

4. Marking

Table 4.	Marking	codes
----------	---------	-------

Type number	Marking code ^[1]
NX3008CBKV	AC

[1] % = placeholder for manufacturing site code.

30 / 30 V, 400 / 220 mA N/P-channel Trench MOSFET

5. Limiting values

Table 5. Limiting values

In accordance with the Absolute Maximum Rating System (IEC 60134).

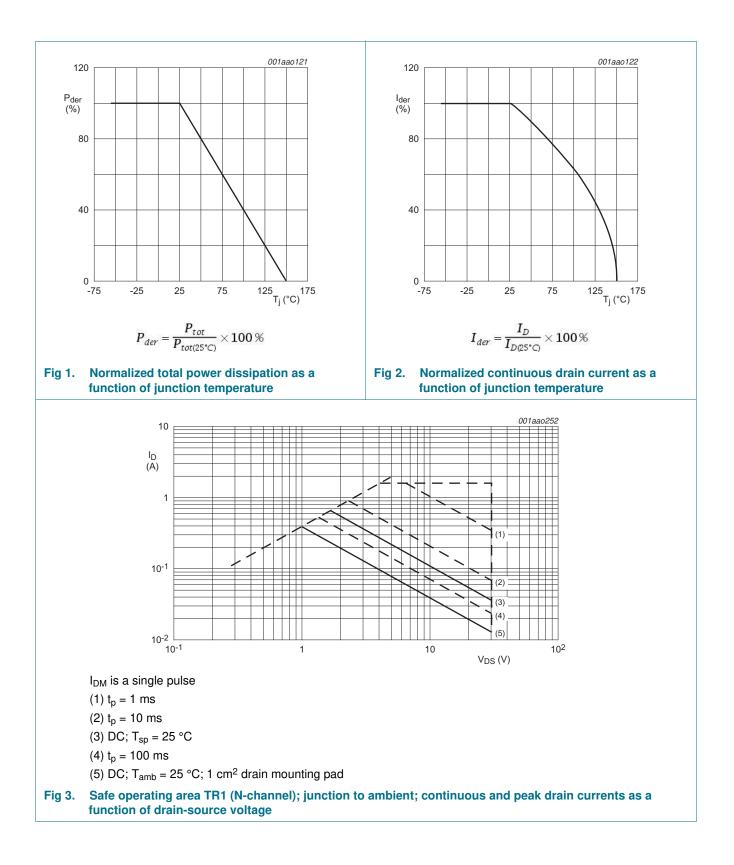

Symbol	Parameter	Conditions	Min	Мах	Unit
TR2 (P-cha	nnel)				
V _{DS}	drain-source voltage	T _j = 25 °C	-	-30	V
V _{GS}	gate-source voltage		-8	8	V
I _D	drain current	$V_{GS} = -4.5 \text{ V}; \text{ T}_{amb} = 25 \text{ °C}$	<u>[1]</u> -	-220	mA
		V _{GS} = -4.5 V; T _{amb} = 100 °C	<u>[1]</u> -	-140	mA
I _{DM}	peak drain current	$T_{amb} = 25 \text{ °C}; \text{ single pulse}; t_p \le 10 \mu\text{s}$	-	-0.9	А
P _{tot}	total power dissipation	T _{amb} = 25 °C	[2] _	330	mW
			<u>[1]</u> _	390	mW
		T _{sp} = 25 °C	-	1090	mW
TR1 (N-cha	nnel)				
V _{DS}	drain-source voltage	T _j = 25 °C	-	30	V
V _{GS}	gate-source voltage		-8	8	V
ID	drain current	V_{GS} = 4.5 V; T_{amb} = 25 °C	<u>[1]</u> _	400	mA
		$V_{GS} = 4.5 \text{ V}; T_{amb} = 100 \text{ °C}$	<u>[1]</u> _	260	mA
I _{DM}	peak drain current	$T_{amb} = 25 \text{ °C}; \text{ single pulse}; t_p \le 10 \mu\text{s}$	-	1.6	А
P _{tot} total power dissipation	T _{amb} = 25 °C	[2] _	330	mW	
			<u>[1]</u> _	390	mW
		T _{sp} = 25 °C	-	1090	mW
Per device					
P _{tot}	total power dissipation	T _{amb} = 25 °C	[2] _	500	mW
Tj	junction temperature		-55	150	°C
T _{amb}	ambient temperature		-55	150	°C
T _{stg}	storage temperature		-65	150	°C
TR1 (N-cha	nnel), Source-drain diode				
I _S	source current	T _{amb} = 25 °C	<u>[1]</u> -	400	mA
TR2 (P-cha	nnel), Source-drain diode				
I _S	source current	T _{amb} = 25 °C	<u>[1]</u> -	-220	mA
TR1 N-chan	nnel), ESD maximum rating				
V _{ESD}	electrostatic discharge voltage	HBM	[3] _	2000	V
TR2 (P-cha	nnel), ESD maximum rating				
V _{ESD}	electrostatic discharge voltage	НВМ	[3] _	2000	V

[1] Device mounted on an FR4 PCB, single-sided copper, tin-plated and mounting pad for drain 1 cm².

[2] Device mounted on an FR4 Printed-Circuit Board (PCB), single-sided copper; tin-plated and standard footprint.

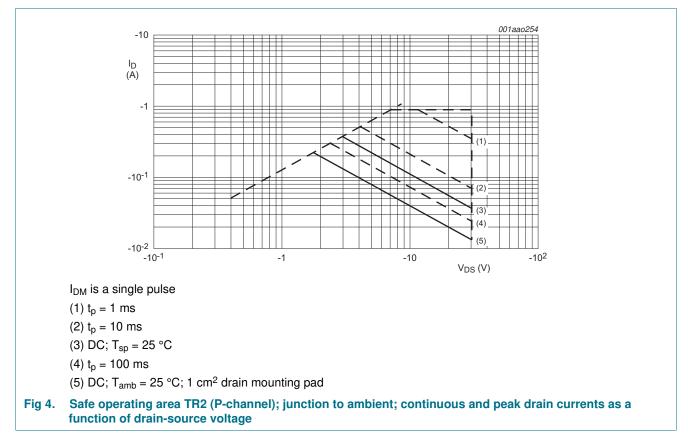

[3] Measured between all pins.

12. Legal information

12.1 Data sheet status

Document status [1] [2]	Product status 3	Definition
Objective [short] data sheet	Development	This document contains data from the objective specification for product development.
Preliminary [short] data sheet	Qualification	This document contains data from the preliminary specification.
Product [short] data sheet	Production	This document contains the product specification.

[1] Please consult the most recently issued document before initiating or completing a design.

[2] The term 'short data sheet' is explained in section "Definitions".

[3] The product status of device(s) described in this document may have changed since this document was published and may differ in case of multiple devices. The latest product status information is available on the Internet at URL <u>http://www.nxp.com</u>.

12.2 Definitions

Preview — The document is a preview version only. The document is still subject to formal approval, which may result in modifications or additions. NXP Semiconductors does not give any representations or warranties as to the accuracy or completeness of information included herein and shall have no liability for the consequences of use of such information.

Draft — The document is a draft version only. The content is still under internal review and subject to formal approval, which may result in modifications or additions. NXP Semiconductors does not give any representations or warranties as to the accuracy or completeness of information included herein and shall have no liability for the consequences of use of such information.

Short data sheet — A short data sheet is an extract from a full data sheet with the same product type number(s) and title. A short data sheet is intended for quick reference only and should not be relied upon to contain detailed and full information. For detailed and full information see the relevant full data sheet, which is available on request via the local NXP Semiconductors sales office. In case of any inconsistency or conflict with the short data sheet, the full data sheet shall prevail.

Product specification — The information and data provided in a Product data sheet shall define the specification of the product as agreed between NXP Semiconductors and its customer, unless NXP Semiconductors and customer have explicitly agreed otherwise in writing. In no event however, shall an agreement be valid in which the NXP Semiconductors product is deemed to offer functions and qualities beyond those described in the Product data sheet.

12.3 Disclaimers

Limited warranty and liability — Information in this document is believed to be accurate and reliable. However, NXP Semiconductors does not give any representations or warranties, expressed or implied, as to the accuracy or completeness of such information and shall have no liability for the consequences of use of such information.

In no event shall NXP Semiconductors be liable for any indirect, incidental, punitive, special or consequential damages (including - without limitation - lost profits, lost savings, business interruption, costs related to the removal or replacement of any products or rework charges) whether or not such damages are based on tort (including negligence), warranty, breach of contract or any other legal theory.

Notwithstanding any damages that customer might incur for any reason whatsoever, NXP Semiconductors' aggregate and cumulative liability towards customer for the products described herein shall be limited in accordance with the *Terms and conditions of commercial sale* of NXP Semiconductors.

Right to make changes — NXP Semiconductors reserves the right to make changes to information published in this document, including without limitation specifications and product descriptions, at any time and without notice. This document supersedes and replaces all information supplied prior to the publication hereof.

Suitability for use — NXP Semiconductors products are not designed, authorized or warranted to be suitable for use in life support, life-critical or safety-critical systems or equipment, nor in applications where failure or malfunction of an NXP Semiconductors product can reasonably be expected to result in personal injury, death or severe property or environmental damage. NXP Semiconductors accepts no liability for inclusion and/or use of NXP Semiconductors products in such equipment or applications and therefore such inclusion and/or use is at the customer's own risk.

Quick reference data — The Quick reference data is an extract of the product data given in the Limiting values and Characteristics sections of this document, and as such is not complete, exhaustive or legally binding.

Applications — Applications that are described herein for any of these products are for illustrative purposes only. NXP Semiconductors makes no representation or warranty that such applications will be suitable for the specified use without further testing or modification.

Customers are responsible for the design and operation of their applications and products using NXP Semiconductors products, and NXP Semiconductors accepts no liability for any assistance with applications or customer product design. It is customer's sole responsibility to determine whether the NXP Semiconductors product is suitable and fit for the customer's applications and products planned, as well as for the planned application and use of customer's third party customer(s). Customers should provide appropriate design and operating safeguards to minimize the risks associated with their applications and products.

NXP Semiconductors does not accept any liability related to any default, damage, costs or problem which is based on any weakness or default in the customer's applications or products, or the application or use by customer's third party customer(s). Customer is responsible for doing all necessary testing for the customer's applications and products using NXP Semiconductors products in order to avoid a default of the applications and the products or of the application or use by customer's third party customer(s). NXP does not accept any liability in this respect.

Limiting values — Stress above one or more limiting values (as defined in the Absolute Maximum Ratings System of IEC 60134) will cause permanent damage to the device. Limiting values are stress ratings only and (proper) operation of the device at these or any other conditions above those given in the Recommended operating conditions section (if present) or the Characteristics sections of this document is not warranted. Constant or repeated exposure to limiting values will permanently and irreversibly affect the quality and reliability of the device.

NX3008CBKV

30 / 30 V, 400 / 220 mA N/P-channel Trench MOSFET

Terms and conditions of commercial sale — NXP Semiconductors products are sold subject to the general terms and conditions of commercial sale, as published at http://www.nxp.com/profile/terms, unless otherwise agreed in a valid written individual agreement. In case an individual agreement is concluded only the terms and conditions of the respective agreement shall apply. NXP Semiconductors hereby expressly objects to applying the customer's general terms and conditions with regard to the purchase of NXP Semiconductors products by customer.

No offer to sell or license — Nothing in this document may be interpreted or construed as an offer to sell products that is open for acceptance or the grant, conveyance or implication of any license under any copyrights, patents or other industrial or intellectual property rights.

Export control — This document as well as the item(s) described herein may be subject to export control regulations. Export might require a prior authorization from national authorities.
