

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Photologic® Dual Channel Encoder

OPB950Z, OPB951

Features:

- Dual channel outputs for Quadrature Output
- Open collector inverter outputs
- 0.010" (0.254 mm) sensor apertures for high resolution
- Snap mount
- OPB950 5±0.5 Volt Vcc, OPB951 4.75 to 16 Volt Vcc

Package 1

Package 2

RoHS

Description:

Each OPB950, series devices consists of an infrared Light Emitting Diode (LED) and a monolithic integrated circuit which incorporates two independent photodiodes, linear amplifiers, Schmitt trigger circuits and output transistors. The device is offered in two versions (see page 2 for package drawings). The OPB950 features a dual open-collector output that is compatible with TTL/LSTTL and can drive up to 8 TTL loads. The OPB951 brings out the anode of the LED for custom power applications.

Applications include linear and rotary encoders with high resolution provided by internal 0.010" (0.254 mm) apertures located in front of each Photologic® sensor on 0.040" (1.02 mm) center line spacing.

Custom electrical, wire, cabling and connectors are available. Contact your local representative or OPTEK for more information.

Applications:

- Mechanical switch replacement
- Speed and direction indication
- Mechanical limit indication
- Rotary encoders
- Edge sensing
- Sliding Door Automotive and Liftgate applications

Ordering Information						
Part Number	Package	LED Peak Wavelength	Sensor	Slot Width / Depth	Aperture Emitter/ Sensor	Lead Length/ Connector
OPB950Z	1	890 nm	Dual TTL	0.200" / 0.350"	0.05" / 0.01"	Molex 5102
OPB951	2		Dual TTL

Photologic® Dual Channel Encoder

OPB950Z, OPB951

Electrical Specifications

Absolute Maximum Ratings ($T_A=25^\circ\text{C}$ unless otherwise noted)

Storage & Operating Temperature Range	-40°C to +85°C
---------------------------------------	----------------

Input Diode

Forward DC Current	50 mA
Reverse DC Voltage	2.0 V
Power Dissipation ⁽¹⁾	100 mW

Output Photologic®

Supply Voltage, V_{CC}	OPB950Z / OPB951	5.5 V / 16 V
Voltage at Output		16 V
Power Dissipation ⁽²⁾		200 mW
Sinking Output Current		40 mA

Electrical Characteristics

 ($T_A = 25^\circ\text{C}$ and $V_{CC} = +5$ Volts unless otherwise noted)
