C15 Power Cord, 5-15P to C15 - Heavy Duty, 15A, 125V, 14 AWG, 4 ft., Black

MODEL NUMBER: P019-004

Heavy-duty C15 power cable connects a PoE network switch or other device with a C16 power inlet to a wall outlet, PDU or UPS system.

Features

IEC C15 Power Cord for Network Devices That Require a Heavy-Gauge Connection

This IEC C15 power cable features 14 AWG wire suitable for high power connections, making it reliable for large server applications that require a higher-rated, heavier-gauge cable. The C15 connector is designed for higher-temperature devices, such as electric kettles, PoE (Power over Ethernet) switches with high-wattage power supplies, and similar network components. This cord can also replace or upgrade the standard power cord provided by the device's manufacturer. The four-foot length helps reduce cable clutter and minimize the risk of tripping.

Highlights

- Recommended for powering PoE switches with high-wattage power supplies
- 4 ft. length allows flexibility in placing devices, while avoiding cable clutter
- NEMA 5-15P to C15 cable replaces or upgrades original manufacturer's power cord
- Thick 14 AWG wire gauge manages high power levels required for larger equipment

Applications

- Connect devices like high-wattage PoE switches to a PDU up to 4 ft. away in your data center
- Extend an existing power connection up to 4 ft. to more easily place a device or reach a power source
- Update or replace the standard power cord provided by a device's original manufacturer
