C19 to L6-20P Heavy-Duty Power Cord - 20A, 250V, 12 AWG, 10 ft., Black

MODEL NUMBER: P040-010

Heavy-duty power cord supplies power to network devices that require a heavy-gauge connection, such as larger servers and switches.

Features

C19 to L6-20P Power Cable for Network Devices That Require a Heavy-Gauge Connection

This 12 AWG power cable is designed for servers, routers, network switches, blade server enclosures and other devices that require a heavy-gauge connection capable of managing high power levels. The fully molded C19 end connects to your device's C20 inlet, and the fully molded NEMA L6-20P plug connects to an AC power source up to 10 feet away. The 10-foot length allows you great flexibility in placing equipment with respect to the power outlet.

Locking Connector Helps Prevent Accidental Disconnection and Expensive Downtime

Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking NEMA L6-20P connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking connector is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the heavy-duty power cable always stays connected.

Highlights

- Recommended for powering servers, switches and other essential network devices
- Locking connector maintains secure link to avoid loss of power and costly downtime
- Thick 12 AWG wire gauge manages high power levels required for larger equipment
- C19 to L6-20P power cord is ideal replacement for worn-out or missing cable
- Long 10 ft. cord provides flexibility in placing connected device away from outlet

Applications

- Connect network devices like servers, switches and blade server enclosures to a PDU up to 10 ft. away in your data center
- Extend an existing power connection up to 10 ft. to more easily place a device or reach a power source in a rack
- Replace a worn-out or missing heavy-gauge power cord
