L5-20R to 5-20P Heavy-Duty Power Adapter - 20A, 120V, 12 AWG, 6 in., Black

MODEL NUMBER: P044-06I

L5-20R to 5-20P heavy-duty power adapter transforms a NEMA 5-15/20R straight-blade outlet to a locking L5-20R outlet.

Features

Heavy-Duty Power Adapter Connects Devices That Require a Heavy-Gauge Connection

This heavy-duty adapter features 12 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. The six-inch power adapter transforms a NEMA 5-15/20R straight-blade outlet into a locking L5-20R outlet. It is also a recommended replacement or upgrade of a standard power cord provided by the device's manufacturer.

Locking L5-20R Connector Helps Prevent Accidental Disconnection and Expensive Downtime

Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking NEMA L5-20R connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking adapter is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

Highlights

- 6 in. adapter allows easy transition to L5-20R outlet with no electrician needed
- Heavy-duty cable replaces or upgrades standard power cord provided by manufacturer
- Thick 12 AWG wire gauge manages high power levels required for larger equipment
- Locking connector maintains secure link to avoid loss of power and costly downtime

Applications

- Transform a non-locking outlet into a locking outlet to prevent a power loss due to accidental disconnection
- Update or replace the standard power cord provided by a device's original manufacturer

Package Includes

- P044-06I L5-20R to 5-20P Heavy-Duty Power Adapter, 6 in., Black
