

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

What is Makeblock Neuron Inventor Kit?

Makeblock Neuron Inventor Kit is an essential package of Makeblock Neuron programmable electronic building blocks including sound, light, and sensor. Combined with intuitive graphical programming, Makeblock Neuron encourages all creators to turn their ideas into real, working gadgets.

Features

Craft a new invention in just 5 minutes : Building blocks are connected in a snap with magnetic Pogo Pins. Users can simply assemble the blocks to make creative gadgets without needing to write any code.

No Coding Experience Required: The graphical programming interface in the Neuron app enables beginners to easily create Neuron applications and add basic or advanced functionality (e.g. IoT) into their inventions.

Continuously Updated Invention Guides: The Neuron app comes with Invention Guides and video tutorials to show you how to get started building with the Inventor Kit. Follow, then lead with your own creative ideas.

Compatible with the Makeblock platform and LEGO® blocks

mBlock Support: Neuron gadgets can be controlled and programmed using mBlock on desktop and the Neuron app on mobile devices.

The magnetic design at the back of Neuron blocks facilitates home use and lab work demonstrations. You can simply place your gadget on a fridge or a whiteboard to show it off and explain how it works.

IoT and Remote Control

WARNING

CHOKING HAZARD

Small parts. Not for children under 3 years.

Children to use only under adult's supervision age

Alligator clip is sharp, please do not clip yourself with the funny switch or the clip of GND wire, it may hurt you.

Tech Specs

Tech Specs of Neuron	
Battery	37V 950mAh、 Output Voltage 5.1 V 、 Input Voltage 5V 、 Input Current <1A、 Working hours Normal strength of more than 90 minutes 、 Working temperature 0° C ~ 45° C
Bluetooth	Specifications BT 4.0、 Frequency Band 2402 - 2480MHz、 Output Power Class Max. 4dBm
Servo	Operating Voltage 4.5V ~ 6.0V、 Idle Current 6±1mA、 Limit Angle 180° ± 10°
Product size	230*170*69mm
Product weight	979g

Part List

Neuron Inventor Kit		
1 x Power	1 x Funny Touch	1 x USB Cable (20cm)
1 x Bluetooth	1 x GND Wire	9 x Neuron Board
1 x Buzzer	1 x Funny Switch	36 x Friction Pin Connectors
1 x Dual Servo Driver	1 x LED Panel	20 x Rubber Bands
1 x Servo	1 x Gyro Sensor
