VGA Coax High-Resolution Monitor Extension Cable with RGB Coax (HD15 M/F), 2048 x 1536 (1080p), 10 ft.

MODEL NUMBER: **P500-010**

Extend the high-resolution connection between your VGA-enabled computer and monitor up to 10 ft. with no ghosting. Recommended for easy access to VGA ports that are hidden or hard to reach.

Description

The P500-010 VGA Coax High-Resolution Monitor Extension Cable (M/F) extends the connection between your VGA-enabled computer and monitor up to 10 feet. It's recommended for easier access to VGA ports that are hidden under a desk or inside a cabinet or otherwise difficult to reach. Constructed from mini-coax (RGB) and paired video wire, it supports video resolutions up to 2048 x 1536, including 1080p, with no ghosting.

Foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Molded gold-plated HD15 connectors with gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
