DisplayPort Extension Cable with Latch, 4K x 2K (3840 x 2160) @ 60 Hz, HDCP 2.2 (M/F), 15 ft.

MODEL NUMBER: P579-015

Extends your existing DisplayPort™ connection by 15 ft. Latching male connector prevents accidental disconnections.

Description

The P579-015 DisplayPort Extension Cable (M/F) attaches to your current DisplayPort cable to extend it by 15 feet. To ensure a continuous audio/video signal, the latching male end prevents the cable from coming loose or getting accidentally disconnected. This 15-foot cable supports UHD video resolutions up to 3840 x 2160 (4K x 2K) at 60 Hz, allowing you to stream digital video and audio from a DisplayPort computer to a monitor or television with a DisplayPort input.

Premium foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI interference. Molded nickel-plated connectors with corrosion-resistant gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief with ridges on each end gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
