Mini DisplayPort to Active VGA Cable Adapter (M/M), 6-ft.

MODEL NUMBER: **P586-006-VGA**

Connects a VGA monitor to a computer with Mini Displayport with a single cable

Description

Tripp Lite P586-006-VGA allows you to connect a desktop or laptop computer with Mini Displayport video port, to a VGA monitor. All in one 6ft design with inline signal converter requires no additional adapters or software....plug-and-play. It features a low profile VGA connector that fits neatly into the available monitor space, without jamming between the wall and the back of the display or impeding neighboring connectors.
