# imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

DATASHEET Part No. P822601/P822602 Product: Embedded FR4 Broadband LTE antenna

Part No. P822601 / P822602

### Universal Broadband FR4 Embedded LTE / LPWA Antenna

700 / 750 / 850 / 900 / 1800 / 1900 / 2100 MHz

Supports: Broadband LTE (OCTA-BAND), LTE CAT-M, NB-IoT, SigFox, LoRa, Cellular LPWA, RPMA

\*Mirrored version offered as P822602

Universal Broadband FR4 Embedded LTE Antenna

Low Band 700 – 1000 MHz High Band 1700 - 2700 MHz

#### **KEY BENEFITS**

#### Reduced Costs and Time-to-Market

Standard antenna eliminates design fees and cycle time associated with a custom solution; getting products to market faster.

#### Greater Flexibility with Unique Form Factors

Ethertronics' technology helps you deliver more advanced ergonomic designs without adverse impact on product performance.

#### Reliability

Comply with latest RoHS requirements

#### APPLICATIONS

•	Medical	•	Automotive
	applications	•	Healthcare
•	Home	•	Point of Sale
	automation	•	Tracking
•	Smart	•	NB-IoT
	metering	•	Sigfox
•	M2M,	•	LoRa
	Industrial	•	Cellular
	devices		LPWA
•	loT	•	RPMA

Firstnet
LTE CAT-M

Ethertronics' Universal Broadband Embedded LTE/LPWA antenna utilizes Isolated Magnetic Dipole™ (IMD) technology which address the challenges facing today's product designers. IMD's high performance and isolation characteristics offer better connectivity and minimal interference. Mirrored version variant offered as P822602.

#### **Stays in Tune**

IMD antenna technology provides superior RF field containment, resulting in less interaction with surrounding components. Ethertronics IMD antennas resist detuning; providing a robust radio link regardless of the usage position

Ethertronics antennas use patented IMD technology in many antenna configurations to provide high performance. IMD antennas requires a smaller design keep-out area, carry lower program development risk which yields a quicker time-to-market, without sacrificing RF performance.

#### **Electrical Specifications**

Typical P822601/P822602 performance 140 x 50 mm PCB

Frequency (MHz)	698-960	1710-2200	2500-2700		
Peak Gain	2.6 dBi	4.4 dBi	3.4 dBi		
Average Efficiency	68%	76%	52%		
VSWR Match		< 2.5:1			
Polarization	Linear				
Power Consumption	2 Watt CW				
Feed Point Impedance	50 $\Omega$ unbalanced				

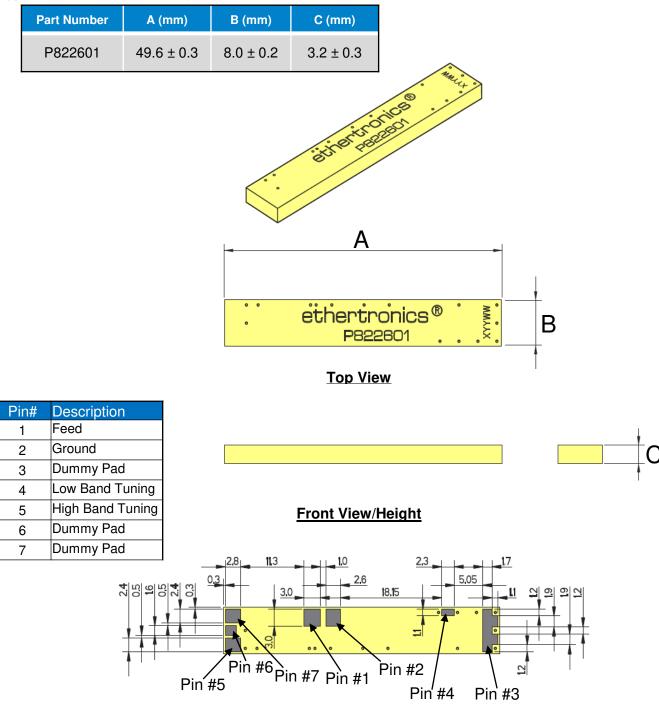

#### **Mechanical Specifications & Ordering Part Number**

Ordering Part #	P822601	P822602	
Dimensions (mm)	49.6 x 8.0 x 3.2	49.6 x 8.0 x 3.2	
Mounting Type	SMT (P&P) P822602 : Mirrored version of P822601		
Variant			
Weight (grams)	2.63		
Packaging	Tape an	d Reel	
Demo Board	(P822601) (P822602)		

#### Antenna Dimensions (P822601)

Typical antenna dimensions (mm)

#### **Recommended Reflow Soldering Profile**

The recommended method for soldering the antenna to the board is forced convection reflow soldering. The following suggestions provide information on how to optimize the reflow process for the FR4 antenna:

\*Adjust the reflow duration to create good solder joints without raising the antenna temperature beyond the allowed maximum of 260° C.
